SUPPLEMENTARY INFORMATION:

Other Legal Requirements

Endangered Species Act [16 U.S.C. 1531 et al.]. Section 7 of the Endangered Species Act (ESA) requires Federal agencies to consult with NOAA Fisheries (NMFS) and the U.S. Fish and Wildlife Service (USFWS) if their actions have the potential to either beneficially or adversely affect any threatened or endangered species. EPA has analyzed the discharges authorized by the General Permit, and their potential to adversely affect any of the threatened or endangered species or their designated critical habitat areas in the vicinity of the discharges. Based on this analysis, EPA has determined that the issuance of this permit is not likely to adversely affect any threatened or endangered species in the vicinity of the discharge. NMFS and USFWS have concurred with this determination.

National Environmental Policy Act (NEPA) [42 U.S.C. 4321 et seq.] and Other Federal Requirements. Regulations at 40 CFR 122.49 list the federal laws that may apply to the issuance of permits, *i.e.*, ESA, National Historic Preservation Act, the Coastal Zone Act Reauthorization Amendments (CZARA), NEPA, and Executive Orders, among others. The NEPA compliance program requires analysis of information regarding potential impacts, development and analysis of options to avoid or minimize impacts, and development and analysis of measures to mitigate adverse impacts. EPA determined that no Environmental Assessments (EAs) or Environmental Impact Statements (EIS's) are required under NEPA. EPA determined that continued coverage of the Chief Joseph Fish Hatchery under the reissued General Permit meets the criteria to be categorically excluded from further NEPA review. EPA also determined that CZARA does not apply.

Essential Fish Habitat (EFH). The Magnuson-Stevens Fishery Management and Conservation Act requires EPA to consult with NOAA-NMFS when a proposed discharge has the potential to adversely affect a designated EFH. The EFH regulations define an adverse effect as "any impact which reduces quality
