

the United States within a reasonable time; or (D) including domestic material will increase the cost of the overall project by more than 25 percent.

FRA concludes a waiver is appropriate because domestically-produced WSCs meeting Palmetto's specification for the ICTF project are not currently produced in the United States.

FRA bases this determination on the following:

- While there are domestic manufacturers for smaller, intermodal cranes, there are no U.S. manufacturers of large and wide-span intermodal cranes for ports;

- In 2011, U.S. Department of Transportation's Maritime Administration (MARAD) determined it had been fifteen years since mobile harbor cranes were manufactured in the United States and issued a waiver for foreign mobile harbor cranes. See 76 FR 14457 (March 16, 2011). This finding comports with previous waivers for cranes granted by MARAD in 2010 and the Federal Highway Administration (FHWA) in 2009. See 75 FR 68661 (November 8, 2010) and 74 FR 51363 (October 6, 2009), respectively;

- In 2013, the National Institute of Standards and Technology's Hollings Manufacturing Extension Partnership (NIST-MEP) scouted for domestic rail-mounted and rubber tire mobile harbor cranes for intermodal containers and did not locate any U.S. manufacturers;

- In 2015, NIST-MEP scouted for domestic large, container vessel ship-to-shore gantry cranes and did not locate any U.S. manufacturers currently manufacturing these cranes;

- In 2015, Palmetto conducted extensive market research about active WSC manufacturers and found that they do not manufacture WSCs in the United States;

- In January 2015, FHWA granted a Buy America waiver for non-domestic harbor cranes after concluding that there are no domestic manufacturers. See 80 FR 3005 (January 21, 2015);

- On February 9, 2015, FRA provided public notice of this waiver request and a 15-day opportunity for comment on its Web site. FRA also emailed notice to over 6,000 persons who have signed up for Buy America notices through "GovDelivery." See <https://www.fra.dot.gov/Page/P0783>. FRA received no comments;

- In May 2015, FHWA granted another Buy America waiver for cargo cranes after concluding that there are no domestic manufacturers. See 80 FR 29790 (May 22, 2015); and

- In January 2016, FRA independently confirmed there are no domestic WSC manufacturers. FRA discussed the U.S. market with crane/intermodal experts from several port terminals and railroad intermodal operations with experience purchasing a variety of crane equipment, including WSC cranes.

FRA encourages Palmetto to follow through with the bidding process described in its waiver request, including Palmetto's expectation to weight "the ability of a supplier to offer a technically compliant, cost-effective solution that maximizes U.S.-

origin content over the lifecycle of the WSCs." FRA is publishing notice of its decision to grant Palmetto's waiver request in the **Federal Register** to provide notice of such finding and an opportunity for public comment after which this waiver will become effective. This waiver applies only to the WSCs for Palmetto's procurement as identified in its waiver request.
