acquisition solicitations and requires the contractor, after award of the contract, to submit descriptive literature on the equipment the contractor intends to furnish to show how that equipment meets the specification requirements of the solicitation. The information is needed to ensure that the equipment proposed by the contractor meets the specification requirements. Failure to require the information could result in the installation of equipment that does not meet contract requirements, with significant loss to the contractor if the contractor subsequently had to remove the equipment and furnish equipment that did meet the specification requirements. The contracting officer will use the information to evaluate whether or not the item offered meets the specification requirements.

Titles: Veterans Affairs Acquisition Regulation (VAAR) Clause 852.211-72, Technical Industry Standards.

OMB Control Number: 2900-0586.

Type of Review: Extension without change of a currently approved collection.

Abstract: VAAR provision 852.211-72 requires that items offered for sale to VA under the solicitation conform to certain technical industry standards, such as Underwriters Laboratory (UL) or the National Fire Protection Association, and that the contractor furnish evidence to VA that the items meet that requirement. The evidence is normally in the form of a tag or seal affixed to the item, such as the UL tag on an electrical cord or a tag on a fire-rated door. This requires no additional effort on the part of the contractor, as the items come from the factory with the tags already in place, as part of the manufacturer's standard manufacturing operation. Occasionally, for items not already meeting standards or for items not previously tested, a contractor will have to furnish a certificate from an acceptable laboratory certifying that the items furnished have been tested in accordance with, and conform to, the specified standards. Only firms whose products have not previously been tested to ensure the products meet the

industry standards required under the solicitation will be required to submit a separate certificate. The information will be used to ensure that the items being purchased meet minimum safety standards and to protect VA employees, VA beneficiaries, and the public. The contracting officer will use the information to evaluate whether or not the item offered meets the specification requirements.

Please refer to “OMB Control No. 2900-0376” in any correspondence. During the comment period, comments may be viewed online through FDMS.

FOR FURTHER INFORMATION CONTACT: Brian McCarthy at (202) 461-6345.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995 (Pub. L. 104-13; 44 U.S.C. 3501-3521), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

Titles: Agent Orange Registry Code Sheet, VA Form 10-9009.

OMB Control Number: 2900-0376.

Type of Review: Extension of a currently approved collection.

Abstract: VA employees obtain demographic data from existing records. The examining physician, Environmental Health (EH) Coordinator (formerly identified as the Agent Orange coordinator)/or other designated personnel obtain the remainder of the information during the Agent Orange registry physical examination process. The information obtained from the Veteran is entered directly onto an electronic VA Agent Orange Form 10-9009, Agent Orange Registry Worksheet (formerly identified as an Agent Orange Registry Code Sheet), via a secured Web site <http://vaww.registries.aac.va.gov> by VA personnel and transmitted directly to the Environmental Agents Service (EAS) Agent Orange Registry database

located at the Austin Information Technology Center (AITC), Austin, TX. Edits are automatically accomplished at the time of entry. The EAS Registries Web site allows you to edit pretty much all the information that has been entered. Some VA facilities will enter the information into the EAS Registries Web site while the Veteran is sitting in front of them. Other facilities will have the Veteran and the examiner complete the Agent Orange Worksheet on paper form, and then later enter the worksheet data into the EAS Registries Web site. VHA Handbook 1302.01, dated 9/5/06 states: “AOR worksheets and dated follow-up letters must be scanned, or made electronic, and attached to an appropriately titled CPRS progress note.”

The registry provides a mechanism to catalogue prominent symptoms, reproductive health, and diagnoses and to communicate with Agent Orange Veterans. VA keeps Veterans informed on research findings or new compensation policies through periodic newsletters. The voluntary, self-selected nature of this registry makes it valuable for health surveillance; however, it is not designed or intended to be a research tool and therefore, the results cannot be generalized to represent all Agent Orange Veterans.

Affected Public: Individuals or households.

Estimated Annual Burden: 6,667 hours.

Estimated Average Burden per Respondent: 20 minutes.

Frequency of Response: Annually.

Estimated Annual Responses: 20,000.
