

determined that this final rule is consistent with the CPS FMP, other provisions of the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable law.

NMFS finds good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effectiveness for the establishment of these final harvest specifications for the 2016–2017 Pacific sardine fishing season. In accordance with the FMP, this rule was recommended by the Council at its meeting in April 2016, the contents of which were based on the best available new information on the population status of Pacific sardine that became available at that time. Making these final specifications effective on July 1 is necessary for the conservation and management of the Pacific sardine resource. The FMP requires a prohibition on directed fishing for Pacific sardine for the 2016–2017 fishing year because the sardine biomass is below the CUTOFF. The purpose of the CUTOFF in the FMP—and prohibiting directed fishing when the biomass drops below this level—is to protect the stock when biomass is low and provide a buffer of spawning stock that is protected from fishing and available for use in rebuilding the stock. A delay in the effectiveness of this rule for a full 30 days would not allow the implementation of this prohibition prior to the expiration of the closure of the directed fishery on July 1, 2016, which was imposed under the 2015–2016 annual specifications.

Delaying the effective date of this rule beyond July 1 would be contrary to the public interest because reducing Pacific sardine biomass beyond the limits set out in this action could decrease the sustainability of the Pacific sardine, as well as cause future harvest limits to be even lower under the harvest control rule, thereby reducing future profits of the fishery.

These final specifications are exempt from review under Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the

Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule and is not repeated here. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not required and none was prepared.

This action does not contain a collection-of-information requirement for purposes of the Paper Reduction Act.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 17, 2016.

Samuel D. Rauch III,
Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Exchange of Flatfish in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is exchanging unused flathead sole and yellowfin sole Community Development Quota (CDQ) for rock sole CDQ acceptable biological catch (ABC) reserves in the Bering Sea and Aleutian Islands management area. This action is necessary to allow the 2016 total allowable catch of rock sole in the Bering Sea and Aleutian Islands management area to be harvested.

DATES: Effective June 24, 2016 through December 31, 2016.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands management area (BSAI) according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2016 flathead sole, rock sole, and yellowfin sole CDQ reserves specified in the BSAI are 2,247 mt, 5,710 mt, and 15,808 mt as established by the final 2016 and 2017 harvest specifications for groundfish in the BSAI (81 FR 14773, March 18, 2016), and one flatfish exchange (81 FR 21482, April 12, 2016). The 2016 flathead sole, rock sole, and yellowfin sole CDQ ABC reserves are 4,842 mt, 11,528 mt, and 6,844 mt as established by the final 2016 and 2017 harvest specifications for groundfish in the BSAI (81 FR 14773, March 18, 2016), and one flatfish exchange (81 FR 21482, April 12, 2016).

The Yukon Delta Fisheries Development Association has requested that NMFS exchange 15 mt of flathead sole and 35 mt of yellowfin sole CDQ reserves for 50 mt of rock sole CDQ ABC reserve under § 679.31(d). Therefore, in accordance with § 679.31(d), NMFS exchanges 15 mt of flathead sole and 35 mt of yellowfin sole CDQ reserves for 50 mt of rock sole CDQ ABC reserves in the BSAI. This action also decreases and increases the associated total annual catches (TAC) and CDQ ABC reserves by the corresponding amounts. Tables 11 and 13 of the final 2016 and 2017 harvest specifications for groundfish in the BSAI (81 FR 14773, March 18, 2016), as revised by one flatfish exchange (81 FR 21842, April 12, 2016), are revised as follows:

TABLE 11—FINAL 2016 COMMUNITY DEVELOPMENT QUOTA (CDQ) RESERVES, INCIDENTAL CATCH AMOUNTS (ICAs), AND AMENDMENT 80 ALLOCATIONS OF THE ALEUTIAN ISLANDS PACIFIC OCEAN PERCH, AND BSAI FLATHEAD SOLE, ROCK SOLE, AND YELLOWFIN SOLE TACS

[Amounts are in metric tons]

Sector	Pacific ocean perch			Flathead sole BSAI	Rock sole BSAI	Yellowfin sole BSAI
	Eastern Aleutian district	Central Aleutian district	Western Aleutian district			
TAC	7,900	7,000	9,000	20,985	56,750	144,365

TABLE 11—FINAL 2016 COMMUNITY DEVELOPMENT QUOTA (CDQ) RESERVES, INCIDENTAL CATCH AMOUNTS (ICAs), AND AMENDMENT 80 ALLOCATIONS OF THE ALEUTIAN ISLANDS PACIFIC OCEAN PERCH, AND BSAI FLATHEAD SOLE, ROCK SOLE, AND YELLOWFIN SOLE TACS—Continued

[Amounts are in metric tons]

Sector	Pacific ocean perch			Flathead sole	Rock sole	Yellowfin sole

Note: Sector apportionments may not total precisely due to rounding.

TABLE 13—FINAL 2016 AND 2017 ABC SURPLUS, COMMUNITY DEVELOPMENT QUOTA (CDQ) ABC RESERVES, AND AMENDMENT 80 ABC RESERVES IN THE BSAI FOR FLATHEAD SOLE, ROCK SOLE, AND YELLOWFIN SOLE

[Amounts are in metric tons]

Sector	2016 Flathead sole	2016 Rock sole	2016 Yellowfin sole	2017 Flathead sole	2017 Rock sole	2017 Yellowfin sole
ABC	66,250	161,100	211,700	64,580	145,000	203,500
TAC	20,985	56,750	144,365	21,000	57,100	144,000
ABC surplus	45,265	104,350	67,335	43,580	87,900	59,500
ABC reserve	45,265	104,350	67,335	43,580	87,900	59,500
CDQ ABC reserve	4,857	11,478	6,879	4,663	9,405	6,367
Amendment 80 ABC reserve	40,408	92,872	60,456	38,917	78,495	53,134
Alaska Groundfish Cooperative for 2016 ¹	4,145	22,974	24,019	n/a	n/a	n/a
Alaska Seafood Cooperative for 2016 ¹ ..	36,263	69,898	36,437	n/a	n/a	n/a

¹ The 2017 allocations for Amendment 80 species between Amendment 80 cooperatives and the Amendment 80 limited access sector will not be known until eligible participants apply for participation in the program by November 1, 2016.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the flatfish exchange by the

Yukon Delta Fisheries Development Association in the BSAI. Since these fisheries are currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of June 20, 2016.

The AA also finds good cause to waive the 30-day delay in the effective

date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 21, 2016.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
