

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed action for the state of South Carolina does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). The Catawba Indian Nation Reservation is located within the State of South Carolina. Pursuant to the Catawba Indian Claims Settlement Act, South Carolina statute 27–16–120, “all state and local environmental laws and regulations apply to the [Catawba Indian Nation] and Reservation and are fully enforceable by all relevant state and local agencies and authorities.” However, EPA has determined that because this proposed rule does not have substantial direct effects on an Indian Tribe because, as noted above, this action is not approving any specific rule, but rather proposing that South Carolina’s already approved SIP meets certain CAA requirements. EPA notes this action will not impose substantial direct costs on Tribal governments or preempt Tribal law.

SUPPLEMENTARY INFORMATION: On May 18, 2016 EPA published in the **Federal Register** (81 FR 31344) a proposed rule that would make targeted revisions to the NPDES regulations. These revisions would make the regulations consistent with the 1987 CWA Amendments and with applicable judicial decisions. These revisions would delete certain regulatory provisions that are no longer in effect and clarify the level of documentation that permit writers must provide for permitting decisions. EPA is also asking for public comments on potential ways to enhance public notice and participation in the permitting process. CWA section 402 established the NPDES permitting program and gives EPA authority to write regulations to implement the NPDES program. 33 U.S.C. 1342(a)(1), (2). The proposed rule, as initially published in the **Federal Register**, provided for written comments to be submitted to EPA on or before July 18, 2016 (a 60-day public comment period). Since publication, EPA has received a request for additional time to submit comments. EPA is extending the public comment period for 15 days until August 2, 2016.
