Airworthiness Directives; Zodiac Seats California LLC Seating Systems

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); reopening of comment period.

SUMMARY: This document announces the reopening of the comment period for the above-referenced NPRM, which proposed the adoption of a new airworthiness directive (AD) that would apply to certain Zodiac Seats California LLC seating systems. The NPRM proposed to require removing affected seating systems. This reopening of the

comment period is necessary to ensure that all interested persons have ample opportunity to submit any written relevant data, views, or arguments regarding the proposed requirements of the NPRM.

DATES: We must receive comments on the NPRM by July 7, 2016.

SUPPLEMENTARY INFORMATION: We proposed to amend 14 CFR part 39 by adding a notice of proposed rulemaking (NPRM) that would apply to certain Zodiac Seats California LLC seating systems. The NPRM was published in the **Federal Register** on April 20, 2016 (81 FR 23212) (“the NPRM”). The NPRM proposed to require removing affected seating systems. The NPRM

also invited comments on its overall regulatory, economic, environmental, and energy aspects.

Events Leading to the Reopening of the Comment Period

Since we issued the NPRM, we have received a request from Zodiac Seats California LLC to extend the comment period. Zodiac stated that initial review of the NPRM by the Society of Automotive Engineers (SAE) Aircraft Seat Committee revealed that since the subject matter of the NPRM is highly significant to the industry, more time is necessary to coordinate the industry input to formalize comments. Zodiac added that the comment due date of June 6, 2016, did not provide adequate time to properly research the topics and submit practical comments.

We agree with the commenter’s request. We have determined that it is appropriate to reopen the comment period for the NPRM to give all interested persons additional time to examine the proposed requirements and submit comments.

The original comment period for the NPRM, Docket No. FAA-2016-5595, Directorate Identifier 2015-NM-087-AD, closed on June 6, 2016.

FAA’s Determination

We consider it necessary to reopen the comment period to give all interested persons additional time to examine the proposed requirements of the NPRM and submit comments. We have determined that reopening the comment period until July 7, 2016, will not compromise the safety of these airplanes.

Extension of Comment Period

The comment period for Docket No. FAA-2016-5595, Directorate Identifier 2015-NM-087-AD, has been revised. The comment period now closes July 7, 2016.

No other part of the regulatory information has been changed; therefore, the NPRM is not republished in the **Federal Register**.

Issued in Renton, Washington, on June 21, 2016.
