[Docket No. NHTSA-2016-0066; Notice 1]

Bridgestone Americas Tire Operations, LLC, Receipt of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petition.

SUMMARY: Bridgestone Americas Tire Operations, LLC (BATO), has determined that certain Bridgestone VSB heavy-duty radial truck tires do not fully comply with paragraph S6.5(d) of Federal Motor Vehicle Safety Standard (FMVSS) No. 119, *New Pneumatic Tires for Motor Vehicles with a GVWR of more than 4,536 Kilograms (10,000 pounds) and Motorcycles*. BATO filed a report dated April 7, 2016, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*. BATO then petitioned NHTSA under 49 CFR part 556 for a decision that the subject noncompliance is inconsequential as it relates to motor vehicle safety.

SUPPLEMENTARY INFORMATION:

I. Overview: Pursuant to 49 U.S.C. 30118(d) and 30120(h) and their

implementing regulations at 49 CFR part 556, BATO submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of BATO's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. Tires Involved: Affected are approximately 1,167 Bridgestone VSB heavy-duty radial truck tires used for logging and other similar applications that were manufactured between April 5, 2015, and March 30, 2016.

III. Noncompliance: BATO stated that while the subject tires, which are rated for both a single and a dual load, display the proper maximum load rating and inflation pressure on the sidewall for a single load, but are missing that information for a dual load. As a consequence, the tires do not fully comply with paragraph S6.5(d) of FMVSS No. 119.

IV. Rule Text: Paragraph S6.5(d) of FMVSS No. 119 provides, in pertinent part:

S6.5 Tire markings. Except as specified in this paragraph, each tire shall be marked on each sidewall with the information specified in paragraphs (a) through (j) of this section.

(d) The maximum load rating and corresponding inflation pressure of the tire, shown as follows:

(Mark on tires rated for single and dual load): Max load single ___ kg (___ lb) at ___ kPa (___ psi) cold. Max load dual ___ kg (___ lb) at ___ kPa (___ psi) cold.

(Mark on tires rated only for single load): Max load ___ kg (___ lb) at ___ kPa (___ psi) cold. . . .

V. Summary of BATO's Petition:

BATO described the subject noncompliance and stated its belief that the noncompliance is inconsequential as it relates motor vehicle safety and is unlikely to have an adverse impact on motor vehicle safety. BATO states that the subject tires meet or exceed all of the performance requirements of FMVSS No. 119. BATO also contends that the missing "dual" load information has no effect on the performance of the subject tires and that the subject tires were tested and passed at the single tire load, which is higher and more punishing than that of the dual tire load.

BATO asserted that NHTSA has previously granted inconsequential noncompliance petitions regarding noncompliances that are similar to the subject noncompliance.

BATO concluded by expressing the belief that the subject noncompliance is inconsequential as it relates to motor vehicle safety, and that its petition to be exempted from providing notification of the noncompliance, as required by 49 U.S.C. 30118, and a remedy for the noncompliance, as required by 49 U.S.C. 30120, should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject tires that BATO no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve equipment distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant tires under their control after BATO notified them that the subject noncompliance existed.

Authority: 49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8.

Director, Office of Vehicle Safety Compliance.
