**Health IT Trade Mission to Brazil
September 26–30, 2016**

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: The United States Department of Commerce, International Trade Administration (ITA) is organizing the 3rd Annual Health IT Trade Mission to Brazil from September 26–30, 2016. This mission is a continuation of two consecutive Health IT missions to Brazil and part of a sustained effort to help U.S. companies access the Brazilian Health IT market. Further, CS Brazil will work with leading Brazilian health media company, Live Media, and the Brazilian Health Informatics Association (SBIS) to organize an e-Health conference, which will be held in Sao Paulo at the same time as the trade mission. U.S. trade mission delegates will participate in the conference as part of the trade mission.

The purpose of the trade mission is to introduce U.S. firms to Brazil's rapidly expanding market for Health IT products, services and solutions and to assist U.S. companies in the pursuit of export opportunities in this sector. The trade mission to Brazil is designed for U.S. Health IT solution providers, particularly small- and medium-sized

enterprises (SMEs), interested in long-term business opportunities in Brazil, as well as the trade associations/organizations that represent them. Target sectors holding high potential for U.S. exporters include: Electronic Health Records (EHRs), Enterprise Resource Planning (ERP), Health IT interoperability system integration services, patient security, Health IT architecture design services, cyber security solutions, IoT solution providers, cloud solutions, clinical software, big data, clinical decision support, health analytics, health care transformation consulting, telehealth, smart mobile devices and mobile health applications, M2M connected devices, communication solutions, education of Health IT students and workforce training.

Trade mission delegates will participate in a five-day program, including technical visits to hospitals, roundtables and policy meetings with public health officials in Sao Paulo and Recife. In addition, on September 27, as part of the trade mission, delegates will participate in a one-day technology seminar at the e-Health Conference in Sao Paulo, thus giving the delegation heightened exposure to potential clients and partners from countries around the world. (Note that admission to the e-Health Conference September 27–28 is included in the Trade Mission fee). The delegates will also have networking opportunities to meet face-to-face with potential strategic partners, systems integrators, value added resellers (VAR's), hospital decision makers, planners and public health officials at the federal, state and city levels.

This mission supports President Obama's National Export Initiative (NEI). The mission will help new-to-market companies learn about the Brazilian Health IT market and make initial contacts. It will also support U.S. companies already doing business in Brazil to increase their footprint and deepen their business interests. The mission will also help participating firms and associations/organizations gain market insights, make industry contacts, implement business strategies, and advance specific projects, with the goal of increasing U.S. exports of products and services to Brazil.
