

price discovery process.”¹⁷ Wharton also states that it has received data with masked broker identities for years from data vendors and is unaware of any cases where this availability has led to successful reverse engineering and public disclosure of broker identities.¹⁸

BDA and SIFMA raised concerns around the inclusion of primary market transaction information (for List or Fixed Offering Price Transactions and Takedown Transactions) in Academic TRACE Data. FINRA confirms that List or Fixed Offering Price Transactions and Takedown Transactions will not be included in the Academic Corporate Bond TRACE Data product.¹⁹

BDA, CCI²⁰ and SIFMA raised the issue of information leakage due to potential data security breaches. FINRA notes that the data usage agreement also will address security measures. For example, FINRA intends that the data agreement require the use of commercially reasonable measures to protect the data and that users administer reasonable security procedures where the data is used, accessed, processed, stored or transmitted to ensure that the data remains secure from unauthorized access.

June 30, 2016.

¹⁸ Wharton provides in its letter examples of vendor data that has been available with masked broker IDs. Specifically, Wharton states that “Thomson-Reuters IBES analyst forecast and recommendations database is a good example as it has been providing masked IDs for both brokerage houses as well as individual analysts since the early 80’s. Another example is Ancerno (Abel-Noser) high-frequency database of institutional trades which academic researchers have used mainly for the reason that it contains a masked institution ID (e.g., Arif, Rephael and Lee, 2015; Choi and Sias, 2012).” See Wharton letter.

and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rules 340, 341 and 359 to harmonize the requirement of when a member or member organization or an ATP Holder must file a Form U-5 with the requirements on other exchanges and the Financial Industry Regulatory Authority ("FINRA"). This filing is not intended to address any other registration requirements in Exchange rules.

Specifically, under current Commentary .01 to Rule 340, members and member organizations (collectively, "Members") are required to electronically file a Form U-5 and any amendment thereto to the Central Registration Depository ("CRD") within ten (10) days of the date of termination of an employee that has been approved for admission to the trading floor. Under current Commentary .09 to Rule 341, Members must submit information concerning the termination of employment of a member, registered employee or an officer on Form U-5 within ten (10) days of the date of termination.⁴ Under current Rule 359(a), an ATP Holder that terminates an ATP Holder or approved person shall electronically file a Form U-5 within ten (10) days of such termination. While each of these rules govern [sic] the same topic, they do not use the same rule language.

The Exchange proposes to amend these three rules by replacing the current requirements of when to electronically file a Form U-5 with the same requirement in each rule that a member, member organization, or ATP Holder (as applicable) promptly file a Form U-5 electronically with CRD, but not later than 30 calendar days after the date of termination of a member, ATP Holder, registered employee or approved person (as applicable). The proposed rule would further require that any amendment to a Form U-5 must also be promptly filed electronically with CRD, but not later than 30 calendar

days after learning of the facts or circumstances giving rise to the amendment. Finally, the proposed rule would provide that all Forms U-5 must also be provided to the terminated person concurrently with filing.

The proposed rule text is based on the requirements of other exchanges and FINRA and therefore would harmonize the requirement of when a member or member organization or an ATP Holder must file a Form U-5 with the rules of other exchanges and FINRA.⁵ The Exchange believes that the proposed rule changes will promote the protection of investors by adding that a Form U-5 be filed promptly, rather than the current requirement that a Form U-5 be filed within 10 days. The Exchange believes that this proposed requirement may lead to Form U-5s being filed sooner than the current 10-day requirement. Consistent with the rules of other exchanges and FINRA, the rule would further provide that a Form U-5 should be filed not later than 30 days after the date of termination. While this date is longer than the current 10 day requirement, the Exchange believes that this timing, combined with the requirement to file promptly, may still lead to firms submitting Form U-5s on a more prompt basis. In addition, the proposed rule would harmonize the standard, thus reducing the burden on competition for member organizations and ATP Holders that are members of multiple exchanges and FINRA to meet similar requirements. Such conformance to the prevalent standard would both harmonize the time period for filing the requisite Form U-5 across multiple self-regulatory organizations and establish a

⁵ See New York Stock Exchange LLC ("NYSE") Rule 345(a), 17(a) and (b) (requiring that a Form U-5 shall be reported promptly, but in any event not later than 30 days following termination, that any amendment to the Form U-5 shall be filed not later than 30 days after learning of the facts or circumstances giving rise to the amendment, and that any termination notice must be provided concurrently to the person whose association has been terminated); BATS BZX Exchange, Inc. ("BZX") Rule 2.5 Interpretations and Policies .04(a) and (b) (requiring that a Form U-5 be reported immediately following the date of termination, but in no event later than 30 days following termination, that any amendment to the Form U-5 shall be filed no later than 30 days after learning of the facts or circumstances giving rise to the amendment, and that any termination notice or amendment should [sic] be provided concurrently to the person whose association has been terminated); FINRA By-Laws Article 5 Sec. 3(a) and (b) (requiring that notice of termination be filed not later than 30 days after termination, that an amendment to a Form U-5 be filed not later than 30 days after learning of the facts or circumstances giving rise to the amendment, and that notice be provided concurrently to the person whose association has been terminated within the time periods prescribed).

known consistent standard to further ensure adherence.

2. Statutory Basis

The Exchange believes that the proposed changes are consistent with Section 6(b) of the Act,⁶ in general, and furthers [sic] the objectives of Section 6(b)(5),⁷ in particular, in that they are designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule changes are consistent with the Section 6(b)(5)⁸ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Specifically, the Exchange believes that the proposed rule changes would remove impediments to and perfect the mechanisms of a free and open market by conforming the time period within which Members and ATP Holders must file a Form U-5 to the requirement that such forms be filed promptly, but not later than 30 days after the termination event. The Exchange believes that the proposed rule changes would protect investors and the public interest by adding that Form U-5s should be filed promptly, rather than requiring only that they be filed within 10 days. In addition, the Exchange believes that adding the requirement that a Form U-5 be filed not later than 30 days after the event would eliminate the disparity among the exchanges, other SROs and the affected persons stemming from the cessation of their employment. In this regard, the proposed changes would foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities as they would both harmonize the time period for filing the requisite Form U-5 across multiple self-regulatory organizations and establish a known consistent standard to further ensure adherence. Such action would not affect nor diminish the abilities of the Exchange, its Members or an ATP Holder to fulfill their regulatory responsibilities under the Act or the rules promulgated thereunder,

⁴ Commentary .09 to Rule 341 does not currently specify electronic transmission, an absence that the proposed amendment would also remedy.

including but not limited to the responsibilities to monitor the activities of such persons, nor would such proposed amendment affect the rights of such terminated persons.

The Exchange believes this additional transparency and clarity removes a potential impediment to, and would contribute to perfecting, the mechanism for a free and open market and a national market system, and, in general, would protect investors and the public interest by harmonizing the time period for filing the requisite Form U-5 across multiple SROs, and by imposing the requirement that such forms be filed promptly.⁹

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that these proposed rule changes would impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed changes are not designed to address any competitive issue but rather to harmonize Exchange time-filing requirements to a standard prevalent among other exchanges and FINRA, thereby reducing any potential confusion and making the Exchange's rules easier to understand and navigate. The Exchange believes that the proposed rule changes would serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

⁹ This filing is intended to address only the filing requirements of Forms U-5; it is not intended to address or affect any other mandatory filing requirements or procedures.

Rule 17Ad-10; SEC File No. 270-265, OMB Control No. 3235-0273.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 17Ad-10 (17 CFR 240.17Ad-10), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 17Ad-10 generally requires registered transfer agents to: (1) Create and maintain current and accurate securityholder records; (2) promptly and accurately record all transfers, purchases, redemptions, and issuances, and notify their appropriate regulatory agency if they are unable to do so; (3) exercise diligent and continuous attention in resolving record inaccuracies; (4) disclose to the issuers for whom they perform transfer agent functions and to their appropriate regulatory agency information regarding record inaccuracies; (5) buy-in certain record inaccuracies that result in a physical over issuance of securities; and (6) communicate with other transfer agents related to the same issuer. These requirements assist in the creation and maintenance of accurate securityholder records, enhance the ability to research errors, and ensure the transfer agent is aware of the number of securities that are properly authorized by the issuer, thereby avoiding over issuance.

The rule also has specific recordkeeping requirements. It requires registered transfer agents to retain certificate detail that has been deleted for six years and keep current an accurate record of the number of shares
