SUPPLEMENTARY INFORMATION:

Title: Certificates for Quota Eligibility.
OMB Number: 0551-0014.

Expiration Date of Approval: March 31, 2017.

Type of Request: Extension of a currently approved information collection.

Abstract: Additional U.S. note 5 to Chapter 17 of the Harmonized Tariff Schedule of the United States (HTS), established by Presidential Proclamation 6763 of December 1994, authorizes the Secretary of Agriculture to establish for each fiscal year the quantity of sugars and syrups that may be entered at the lower tariff rates of TRQs. This authority was proclaimed by the President to implement the results of the Uruguay Round of multilateral trade negotiations as reflected in the provisions of Schedule XX (United States), annexed to the Agreement Establishing the World Trade Organization (WTO). Under various free trade agreements (FTAs), the United States has agreed to require CQEs for the entry into U.S. customs territory of sugar and sugar-containing products. The authority for requiring these certificates is the Implementation Acts for the U.S.-Colombia and U.S.-Panama Trade Promotion Agreements set forth under 19 U.S.C. 3805.

The terms under which Certificates for Quota Eligibility (CQEs) will be issued to foreign countries that have been allocated a share of the WTO or have an allocation under a FTA TRQ are set forth in 15 CFR part 2011, Allocation of Tariff-Rate Quota on Imported Sugars, Syrups, and Molasses, Subpart A—Certificates of Quota. This regulation provides for the issuance of CQEs by the Secretary of Agriculture and in general

prohibits sugar subject to the above-mentioned TRQs from being imported into the United States or withdrawn from a warehouse for consumption at the in-quota duty rates unless such sugar is accompanied by a valid CQE.

CQEs are distributed to foreign countries by the Director of the Import Policies and Export Reporting Division, Foreign Agriculture Service, or his or her designee. The distribution of CQEs is in such amounts and at such times as the Director determines are appropriate to enable the foreign country to fill its quota allocation for such quota period in a reasonable manner, taking into account harvesting periods, U.S. import requirements, and other relevant factors. The information required to be collected on the CQE is used to monitor and control the imports of products subject to the WTO and FTA sugar TRQs. A valid CQE, duly executed and issued by the Certifying Authority of the foreign country, is required for eligibility to enter the products into U.S. customs territory under the TRQs.

Estimate of burden: The public reporting burden for the collection directly varies with the number of CQEs issued.

Respondents: Foreign governments.

Estimated number of WTO respondents: 40.

Estimated number of FTA respondents: 2.

Estimated number of responses per respondent: 30 per fiscal year.

Estimated total annual reporting burden: 210 hours.

Requests for comments: Send comments regarding (a) Whether the information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information including validity of the methodology and assumption used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Copies of this information collection may be obtained from Connie Ehrhart, the Agency Information Collection Coordinator, at (202) 690-1578.

All responses to this notice will be summarized and included in the request for OMB approval. All comments also will become a matter of public record.

FAS is committed to complying with the Government Paperwork Elimination Act which requires Government agencies, to the maximum extent feasible, to provide the public the option of electronically submitting information collection. CQEs permit exporters to ship raw cane sugar to the United States at the U.S. sugar price, which is ordinarily higher than the world sugar price. Therefore, in contrast to most information collection documents, CQEs have a monetary value equivalent to the substantial benefits to exporters. CQEs have always been carefully handled as secure documents and distributed only to foreign government-approved Certifying Authorities.

Signed at Washington, DC, on June 21, 2016.

Philip C. Karsting,

Administrator, Foreign Agricultural Service.

SUPPLEMENTARY INFORMATION:

Title: Export Sales (Reporting Program) of U.S. Agricultural Commodities.

OMB Number: 0551-0007.

Expiration Date of Approval: June 20, 2017.

Type of Request: Extension of a currently approved information collection.

Abstract: Section 602 of the Agricultural Trade Act of 1978, as amended, (7 U.S.C. 5712) requires the reporting of information pertaining to contracts for export sale of certain specified agricultural commodities and other commodities that may be designated by the Secretary. In accordance with Sec. 602, individual weekly reports submitted shall remain confidential and shall be compiled and published in compilation form each week following the week of reporting. Any person who knowingly fails to report shall be fined not more than \$25,000 or imprisoned for not more than 1 year, or both. Regulations at 7 CFR part 20 implement the reporting requirements, and prescribe a system for reporting information pertaining to contracts for export sales.

USDA's Export Sales Reporting System was created after the large unexpected purchase of U.S. wheat and

corn by the Soviet Union in 1972. To make sure that all parties involved in the production and export of U.S. grain have access to up-to-date export information, the U.S. Congress mandated an export sales reporting requirement in 1973. Prior to the establishment of the Export Sales Reporting System, it was difficult for the public to obtain information on export sales activity until the actual shipments had taken place. This frequently resulted in considerable delay in the availability of information.

Under the Export Sales Reporting System, U.S. exporters are required to report all large sales of certain designated commodities by 3:00 p.m. (Eastern Time) on the next business day after the sale is made. The designated commodities for these daily reports are wheat (by class), barley, corn, grain sorghum, oats, soybeans, soybean cake and meal, and soybean oil. Large sales for all reportable commodities except soybean oil are defined as 100,000 metric tons or more of one commodity in 1 day to a single destination or 200,000 tons or more of one commodity during the weekly reporting period. Large sales for soybean oil are 20,000 tons and 40,000 tons, respectively.

Weekly reports are also required, regardless of the size of the sales transaction, for all of these commodities, as well as wheat products, rye, flaxseed, linseed oil, sunflowerseed oil, cotton (by staple length), cottonseed, cottonseed cake and meal, cottonseed oil, rice (by class), cattle hides and skins (cattle, calf, and kip), beef and pork. The reporting week for the export sales reporting system is Friday-Thursday. The Secretary of Agriculture has the authority to add other commodities to this list.

U.S. exporters provide information on the quantity of their sales transactions, the type and class of commodity, the marketing year of shipment, and the destination. They also report any changes in previously reported information, such as cancellations and changes in destinations.

The estimated total annual burden of 47,907 hours in the OMB inventory for the currently approved information collection remains unchanged.

Estimate of Burden: The average burden, including the time for reviewing instructions, gathering data needed, completing forms, and record keeping is estimated to be 30 minutes.

Respondents: All exporters of wheat and wheat flour, feed grains, oilseeds, cotton, rice, cattle hides and skins, beef, pork, and any products thereof, and other commodities that the Secretary
