

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. ER16-2071-000]

Innovative Solar 43, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Innovative Solar 43, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is July 20, 2016.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC

Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: June 30, 2016.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 13755-002]

FFP Missouri 12, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 Code of Federal Regulations part 380, Office of Energy Projects staff has reviewed the application for original license for the Allegheny Lock and Dam 2 Hydroelectric Project (FERC No. 13755-002) on the Allegheny River.

The Allegheny Lock and Dam 2 Hydroelectric Project would be located at an existing lock and dam owned by the U.S. Army Corps of Engineers on the Allegheny River between the boroughs of Sharpsburg and Aspinwall, Pennsylvania, in Allegheny County at river mile 6.7. The project would occupy 3.23 acres of federal land.

Staff has prepared this environmental assessment (EA) that analyzes the potential environmental effects of the project and concludes that constructing and operating the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at www.ferc.gov using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects.

For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice. The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, 202-502-8659. In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include: "Allegheny Lock and Dam 2 Hydroelectric Project No. 13755-002."

For further information, contact Nicholas Ettema at (202) 502-6565 or by email at nicholas.ettema@ferc.gov.

Dated: June 30, 2016.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP16-4-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Schedule for Environmental Review of the Orion Project

On October 9, 2015, Tennessee Gas Pipeline Company, L.L.C. (Tennessee) filed an application in Docket No. CP16-4-000 requesting a Certificate of Public Convenience and Necessity pursuant to section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Orion Project (Project), and would deliver an additional 135,000 dekatherms per day of natural gas to meet needs of three contracted shippers in the northeast United States.

On October 26, 2015, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's

planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—August 23, 2016.

90-day Federal Authorization Decision Deadline—November 21, 2016.

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Tennessee proposes to construct and operate pipeline facilities, modify existing aboveground facilities, and add new tie-in facilities in Wayne and Pike Counties, Pennsylvania.

The Project would consist of the following facilities:

- Approximately 12.9 miles of new 36-inch-diameter looping¹ pipeline in Wayne and Pike Counties, Pennsylvania;
- a new internal pipeline inspection ("pig")² launcher, crossover, and connecting facilities at the beginning of the proposed pipeline loop in Wayne County;
- a new pig receiver, crossover, and connecting facilities at the end of the proposed pipeline loop in Pike County; and
- modifications at Tennessee's existing Compressor Station 323, including rewheeling/restaging of an existing compressor and other piping and appurtenant modifications.

Background

On November 23, 2015, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Orion Project and Request for Comments on Environmental Issues* (NOI). On December 3, 2015, the Commission issued a supplemental NOI extending the scoping period for the Project. The NOI and supplemental NOI were sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOIs, the Commission received comments from the National Park Service and several individuals. The comments primarily concerned impacts on water resources, land use, recreation, air quality, and reliability and safety.

¹ A pipeline loop is a segment of pipe constructed parallel to an existing pipeline to increase capacity.

² A "pig" is a tool that the pipeline company inserts into and pushes through the pipeline for cleaning the pipeline, conducting internal inspections, or other purposes.

The U.S. Army Corps of Engineers is a cooperating agency in the preparation of the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP16-4), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: June 30, 2016.

Kimberly D. Bose,

Secretary.
