

prior to attendance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

ADDRESSES: The meetings will be held at the Wrangell Ranger District Office, 525 Bennett Street, Wrangell, Alaska, and the Petersburg Ranger District Office, 12 North Nordic Drive in Petersburg, Alaska. Interested persons may attend in person at either location, or by teleconference. For anyone who would like to attend by teleconference, please visit the Committee's Web site listed in the **SUMMARY** section or contact Robert Dalrymple at rdalrymple@fs.fed.us or David Zimmerman at dlzimmerman@fs.fed.us for further details. Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION**. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received at the Petersburg Ranger District Office or the Wrangell Ranger District Office, Monday through Friday at 8:00 a.m. to 4:30 p.m. Please call ahead to facilitate entry into the building.

FOR FURTHER INFORMATION CONTACT:

David Zimmerman, District Ranger, Petersburg Ranger District, P.O. Box 1328, Petersburg, Alaska 99833, by phone at (907) 772-3871 or via email at dlzimmerman@fs.fed.us, or Robert Dalrymple, District Ranger, Wrangell Ranger District, P.O. Box 51, Wrangell, Alaska 99929, by phone at (907) 874-2323 or via email rdalrymple@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meetings is to:

- (1) Review progress of previously funded projects;
- (2) Review new project proposals; and
- (2) Conclude any business that may be remaining concerning recommendations for allocation of title II funding to projects.

The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by at least one week prior to the meeting to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the Committee may file written statements with the Committee staff before or after the meeting. Written comments and time requests for oral comments must be sent to David Zimmerman, District Ranger, Petersburg

Ranger District, P.O. Box 1328, Petersburg, Alaska 99833; or Robert Dalrymple, District Ranger, Wrangell Ranger District, P.O. Box 51, Wrangell, Alaska 99929; or by email to dlzimmerman@fs.fed.us or via facsimile to (907) 772-5995. Summary/minutes of the meeting will be posted on the Web site listed above within 45 days after the meeting.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case by case basis.

Dated: June 24, 2016.

Robert J. Dalrymple,
District Ranger.

Final Damage Assessment and Restoration Plan and Environmental Assessment for the T/B DBL 152 Oil Spill in the Gulf of Mexico

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Availability of a Final Damage Assessment and Restoration Plan and Environmental Assessment for the T/B DBL 152 Oil Spill in the Gulf of Mexico.

SUMMARY: NOAA, the Natural Resource Trustee for this project (identified below) has prepared a Final Damage Assessment and Restoration Plan and Environmental Assessment (Final DARP/EA) that addresses natural resource injuries and resource service losses resulting from the November 11, 2005 T/B DBL 152 oil spill in the Gulf of Mexico. This Final DARP/EA presents NOAA's assessment of the injuries to natural resources and services and NOAA's final plan to compensate the public for those losses. NOAA's selected restoration alternative is an estuarine shoreline protection and salt marsh restoration project at the Texas Chenier Plain National Wildlife Refuge Complex. NOAA previously provided the public an opportunity to comment on the Draft DARP/EA. The Draft DARP/EA was released on March 18, 2013 and was announced in a press

release on NOAA's Web site and in the **Federal Register** (March 18, 2013; 78 FR 16655). NOAA received several comments on the Draft DARP/EA and prepared a response to these comments, described in further detail in the Supplementary Information section below. The full text of the public comments received is provided in Appendix C to the Final DARP/EA, and the response to the comments prepared by NOAA, which includes a summary of changes made to the Draft DARP/EA in response to the comments, is provided in Appendix B of the Final DARP/EA. The purpose of this notice, which is issued under the authority of the Oil Pollution Act (OPA) and the National Environmental Policy Act, is to inform the public of the availability of the Final DARP/EA and of the selected restoration alternative.

ADDRESSES: Requests for copies of the Final DARP/EA should be directed to Kris Benson of NOAA, 4700 Avenue U, Building 307, Galveston, TX 77551, email: kristopher.benson@noaa.gov. The Final DARP/EA and the Finding of No Significant Impact (FONSI) are available at: <https://casedocuments.darrp.noaa.gov/southeast/dbl152/admin.html>.

FOR FURTHER INFORMATION CONTACT: Kris Benson of NOAA, 4700 Avenue U, Building 307, Galveston, TX 77551, email: kristopher.benson@noaa.gov.

SUPPLEMENTARY INFORMATION:

Incident and Response

On November 11, 2005, while en route from Houston, Texas, to Tampa, Florida, the integrated tug-barge unit comprised of the tugboat "Rebel" and the double-hull Tank Barge (T/B) DBL 152 struck the submerged remains of a pipeline service platform in the Gulf of Mexico that collapsed during Hurricane Rita. An estimated 45,846 barrels of oil (1,925,532 gallons) were discharged into federal waters of the Gulf of Mexico as a result of this incident, most of which sank to the ocean floor. Of this volume, an estimated 2,355 barrels (98,910 gallons) were recovered by divers. In total, an estimated 43,491 barrels (1,826,622 gallons) of oil remained unrecovered at the time submerged oil cleanup operations were discontinued in January 2006.

Government agencies responded to the incident to supervise and assist in clean-up and begin assessing the impact of the spill on natural resources. Under the federal Oil Pollution Act (OPA), 33 U.S.C. 2701-2761, the National Oceanic and Atmospheric Administration (NOAA), of the Department of Commerce, is responsible for restoring

natural resources injured by the DBL 152 oil spill with funding from the responsible party (RP) or, where an RP does not exist or exceeds its limit of liability, the Oil Spill Liability Trust Fund (OSLTF) administered by the U.S. Coast Guard (USCG). The measure of damages to natural resources is the cost of restoring, rehabilitating, replacing or acquiring the equivalent of the injured natural resources, compensation for the diminution in value of those natural resources pending restoration, and the reasonable costs of assessing such damages. 33 U.S.C. 2702(b)(2)(A), 2706(d)(1). All recoveries for the first two elements are to be spent implementing a restoration plan developed by the trustees. 33 U.S.C. 2706(f).

Natural Resource Damage Assessment and Restoration Planning

NOAA, acting as Trustee on the public's behalf, has conducted a natural resource damage assessment (NRDA) to determine the nature and extent of natural resource losses resulting from this incident and the restoration actions needed to restore these losses. The NRDA was conducted using the OPA NRDA regulations found at 15 CFR part 990. On the basis of data provided by the NRDA, NOAA prepared this Final Damage Assessment and Restoration Plan/Environmental Assessment (Final DARP/EA) to consider restoration alternatives and identify a selected alternative.

An injury assessment conducted by NOAA determined that the primary injury resulting from this incident was to offshore benthic habitat. This conclusion is described in greater detail in the Final DARP/EA.

NOAA considered various restoration alternatives to compensate the public for spill-related injuries and to restore comparable natural resource services to those that were provided by the resources injured by the spill. The selected restoration alternative identified by NOAA is an estuarine shoreline protection and salt marsh restoration project at the Texas Chenier Plain National Wildlife Refuge Complex. The project area is located in Galveston Bay, Texas. The project is designed to protect shoreline with a protective structure consisting of rip-rap habitat. The project will be designed so that salt marsh habitat will be created behind the breakwater. Prior to implementation, the project will undergo pre-project engineering to design the shoreline protection structure and the marsh.

The U.S. Coast Guard (USCG) has determined that the RP has exceeded its

limit of liability under OPA. Therefore, the Final DARP/EA will be submitted to the Oil Spill Liability Trust Fund (OSLTF) as part of a claim for funds to implement the selected restoration project. The OSLTF is administered by the USCG and is maintained through fees paid by industry.

Public Comments and NOAA's Response

NOAA prepared the Final DARP/EA after consideration of the public's response to the Draft DARP/EA. One of the comments received was supportive of the restoration project alternatives. Other comments received asked for clarity on various points in the Draft DARP/EA and the NRDA process, questioned various aspects of the NRDA for this site, questioned the appropriateness of the selected project to the specific injury, or requested additional evaluation or monitoring by NOAA. The full text of the public comments received is provided in Appendix C to the Final DARP/EA, and NOAA's full response to the comments received, along with a discussion of changes made to the DARP/EA in response to the comments, is provided in Appendix B to the Final DARP/EA.

A brief summary of the changes made to the DARP/EA in response to the comments is as follows:

- A paragraph on overlapping impacts of the DBL 152 oil spill and the 2010 Deepwater Horizon Oil Spill was revised in Section 4 of the Final DARP/EA.
- A discussion was added to Section 6 of the Final DARP/EA regarding a candidate project proposed by the Louisiana Oil Spill Coordinator's Office (LOSCO) on behalf of the Louisiana Oil Spill Natural Resource Trustees.
- Clarifying language was added to Section 3 of the Final DARP/EA regarding potential injuries to water column species.

Administrative Record

Pursuant to the OPA NRDA regulations, NOAA has developed an Administrative Record to support its restoration planning decisions and inform the public of the basis of their decisions. Information and documents, including public comments received on the Draft DARP/EA, the Final DARP/EA, and other related restoration planning documents, are also part of the Administrative Record. The documents comprising the public record (Administrative Record) can be viewed at <https://casedocuments.darrp.noaa.gov/southeast/dbl152/admin.html>.

Dated: June 3, 2016.

David Westerholm,

Director, Office of Response and Restoration.

Foreign-Trade Zones Board

[B-13-2016]

Foreign-Trade Zone (FTZ) 141— Monroe County, New York; Authorization of Proposed Production Activity; Xerox Corporation; Subzone 141B (Bulk Xerographic Toner, Toner Cartridges and Photoreceptors); Webster, New York

On March 7, 2016, the County of Monroe, New York, grantee of FTZ 141, submitted a notification of proposed production activity to the FTZ Board on behalf of Xerox Corporation (Xerox) located within Subzone 141B in Webster, New York.

The notification (updated on April 26, 2016) was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (81 FR 14834, March 18, 2016). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the updated notification is authorized, subject to the FTZ Act and the Board's regulations, including Section 400.14.

Dated: July 5, 2016.

Renewable Energy and Energy Efficiency Business Directory Survey

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Opportunity to participate in the RE3 App.

SUMMARY: The U.S. Departments of State, Commerce, and Energy (the "Interagency Team") announce an opportunity for U.S.-based suppliers and providers of clean energy, smart grid, and energy efficiency solutions to participate in an interactive directory of renewable energy and energy efficiency solutions. The Interagency Team has
