

also amended the regulations to provide for the Program Standards document to be updated through the issuance of a notice in the **Federal Register** followed by a period of public comment. The latter change was intended to enable us to make the NPIP program more effective by allowing us to update Plan provisions without the need for rulemaking.

The Committee recently voted to amend the Program Standards by creating provisions for compartmentalization of primary breeding poultry establishments and approval of compartment components such as farms, feedmills, hatcheries, and egg depots. The urgency of adding such provisions to the Program Standards was reinforced by the devastating highly pathogenic avian influenza (HPAI) outbreak of 2014–2015, which highlighted the enormous impact trade restrictions can have on distributing breeding stock to customers around the globe.

The regulations at 9 CFR 145.45, 145.74, and 145.84 provide the basis for compartmentalization of poultry primary breeding companies.

Compartmentalization is a procedure that a country may implement to define and manage animal subpopulations of distinct health status and common biosecurity program within its territory, in accordance with the guidelines in the World Organization for Animal Health (OIE) Terrestrial Animal Health Code, for the purpose of disease control and international trade.

Compartmentalization is distinct from regionalization, which involves recognition of geographical zones of a country that can be identified and characterized by their level of risk for different diseases, but the two are not mutually exclusive. When regionalization is not feasible, APHIS may seek to preserve trade with key countries in the face of outbreaks of HPAI and other diseases through compartmentalization. Compartmentalization may also enable continued interstate movement of breeding stock to domestic customers and operations if future low pathogenic avian influenza and/or HPAI outbreaks occur.

We are advising the public that we have prepared updates to the NPIP Program Standards document. The proposed updates would amend the Program Standards by adding provisions for compartmentalization of primary

documents/ProgramStandardsAugust2014.pdf, or by writing to the Service at National Poultry Improvement Plan, APHIS, USDA, 1506 Klondike Road, Suite 101, Conyers, GA 30094.

breeding poultry establishments and approval of compartment components such as farms, feedmills, hatcheries, and egg depots, as recommended by the General Conference Committee.

Included in the proposed additions are requirements for applying for compartmentalization of facilities and for facility design and management, as well as an outline of the auditing system APHIS will use to evaluate compartments and their component operations.

After reviewing any comments we receive on the proposed updates, we will publish a second notice in the **Federal Register** announcing our decision regarding the proposed changes.

Paperwork Reduction Act

In accordance with section 3507(d) of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), we have determined that there are reporting and recordkeeping burdens associated with the compartmentalization provisions we are considering. We will publish a separate document in the **Federal Register**, announcing our determination of burden and soliciting comments on it.

Foreign-Trade Zones Board

[B-45-2016]

Foreign-Trade Zone (FTZ) 189—Kent, Ottawa and Muskegon Counties, Michigan; Notification of Proposed Production Activity; Southern Lithoplate, Inc. (Aluminum Printing Plates); Grand Rapids, Michigan

The KOM Foreign Trade Zone Authority, grantee of FTZ 189, submitted a notification of proposed production activity to the FTZ Board on behalf of Southern Lithoplate, Inc. (SLP), located in Grand Rapids, Michigan. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on July 6, 2016.

SLP already has authority for the production of aluminum offset printing plates for the printing industry within Site 10 of FTZ 189. The current request would add foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt SLP from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, SLP would be able to choose the duty rate during customs entry procedures that applies to aluminum printing plates (duty rate 3.7%) for the foreign-status materials/components noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include the following chemicals for photographic purposes: organic dyes; photoinitiators; photosensitizing dyes; polymers; triazine photoinitiators; pigments in solvent; acrylate polymers in solvent; novolak polymers in solvent; anion surfactants; emulsifiers in water; acrylate monomers; acrylic polymers; polyvinyl alcohols; acrylate oligomers in solvent; emulsifiers; polyvinylphenol; and, carboxymethyl cellulose (duty rate ranges from free to 6.5%). The request indicates that inputs classified under HTSUS Subheadings 3204.17, 3208.20 and 3208.90 will be admitted to the zone in privileged foreign status (19 CFR 146.41) or

domestic status (19 CFR 146.43), thereby precluding inverted tariff benefits on such items.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 22, 2016.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482-0473.

Dated: July 7, 2016.

Andrew McGilvray,
Executive Secretary.

[B-14-2016]

Foreign-Trade Zone (FTZ) 7—Mayaguez, Puerto Rico; Authorization of Proposed Production Activity; Lilly Del Caribe, Inc., Subzone 7K (Pharmaceutical Products); Carolina and Guayama, Puerto Rico

On March 8, 2016, the Puerto Rico Industrial Development Company, grantee of FTZ 7, submitted a notification of proposed production activity to the FTZ Board on behalf of Lilly Del Caribe, Inc. (Lilly), located within Subzone 7K in Carolina and Guayama, Puerto Rico.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (81 FR 15681, March 24, 2016). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the Board's regulations, including Section 400.14.
