

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9949-04-OA]

Notification of Two Public Teleconferences of the Science Advisory Board; Environmental Economics Advisory Committee**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces two public teleconferences of the Environmental Economics Advisory Committee (EEAC) to review its draft report regarding the EPA's proposed methodology for updating its mortality risk valuation estimates for policy analysis.

DATES: The SAB Environmental Economics Advisory Committee will conduct public teleconferences on August 4 and August 5, 2016. Each of the teleconferences will begin at 1:00 p.m. and end at 5:00 p.m. (Eastern Time).

ADDRESSES: The teleconferences will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning the public teleconferences may contact Dr. Thomas Armitage, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office (1400R), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; by telephone at (202) 564-2155 or via email at armitage.thomas@epa.gov. General information concerning the EPA SAB can be found at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Environmental Economics Advisory Committee will hold two public teleconferences to discuss its draft report on the EPA's methodology for updating its mortality risk valuation estimates for policy analysis. The

committee will provide advice to the Administrator through the chartered SAB.

The EPA's Office of Policy requested advice on proposed improvements to the Agency's methodology for estimating benefits associated with reduced risk of mortality. This methodology takes into account the amounts that individuals are willing to pay for reductions in mortality risk. The resulting values are combined into an estimate known as the value of statistical life (VSL) which is used in regulatory benefit-cost analysis. The EPA also requested that the SAB review options for accounting for changes in the VSL over time as real income grows, known as income elasticity of willingness to pay. The EPA submitted the following documents to the SAB for review: (1) *Valuing Mortality Risk for Policy: A Meta-analytic Approach*, a white paper prepared by the EPA Office of Policy to describe the Agency's interpretation and application of SAB recommendations received in July 2011 regarding updates to the EPA's estimates of mortality risk valuation; (2) *The Effect of Income on the Value of Mortality and Morbidity Risk Reductions*, a report prepared for the EPA's Office of Air and Radiation on options for updating the Agency's recommended estimate for the income elasticity of the value of statistical life; and (3) *Recommended Income Elasticity and Income Growth Estimates: Technical Memorandum*, an EPA memorandum providing supplementary information to the report. The SAB Environmental Economics Advisory Committee met on March 7-8, 2016, to receive agency briefings, hear public comments, and deliberate on responses to the EPA charge questions (81 FR 4296-4297). The committee also held teleconferences on June 16 and June 17, 2016 to discuss its draft report with responses to the charge questions (81 FR 30535-30536). The purpose of the teleconferences described in this notice is to continue the discussion of the committee's draft report. The two committee teleconferences will be conducted as one complete meeting beginning on August 4, 2016 and continuing on August 5, 2016, if needed to complete agenda items. Additional information about this SAB advisory activity can be found at the following URL: http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Valuing%20fatal%20risk%20for%20policy?OpenDocument.

Technical Contacts: Any technical questions concerning the EPA documents reviewed by the SAB should be directed to Dr. Nathalie Simon in the

EPA's National Center for Environmental Economics, by telephone at (202) 566-2347 or by email at simon.nathalie@epa.gov.

Availability of Meeting Materials: Prior to the meeting, the teleconference agenda, draft committee report, and other materials will be available on the SAB Web site at <http://www.epa.gov/sab>.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Interested members of the public may submit relevant information on the topic of this advisory activity, and/or the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB committees and panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the DFO directly. **Oral Statements:** In general, individuals or groups requesting an oral presentation at the teleconference will be limited to three minutes. Interested parties wishing to provide comments should contact Dr. Armitage, DFO, in writing (preferably via email) at the contact information noted above by July 28, 2016, to be placed on the list of public speakers for the meeting. **Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by committee members, statements should be supplied to the DFO (preferably via email) at the contact information noted above by July 28, 2016. It is the SAB Staff Office general policy to post written comments on the Web page for advisory meetings. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Armitage at the contact information provided above. To request accommodation of a disability, please contact Dr. Armitage preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.

Dated: July 5, 2016.

Thomas H. Brennan,
Deputy Director, EPA Science Advisory Board Staff Office.

Alpha-chlorohydrin and Hydrogen Cyanamide Registration Review Interim Decisions; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA’s interim registration review decisions for the pesticides alpha-chlorohydrin (case 4120) and hydrogen cyanamide (case 7005). Registration review is EPA’s periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, that the pesticide

can perform its intended function without causing unreasonable adverse effects on human health or the environment. Through this program, EPA is ensuring that each pesticide’s registration is based on current scientific and other knowledge, including its effects on human health and the environment.

FOR FURTHER INFORMATION CONTACT:

For pesticide specific information, contact: The Chemical Review Manager for the pesticide of interest identified in the table in Unit II., Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

For general information on the registration review program, contact: Richard Dumas, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 308-8015; email address: *dumas.richard@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager for the pesticide of interest identified in the table in Unit II.

FOR FURTHER INFORMATION CONTACT:

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2016-0338 is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What action is the agency taking?

Pursuant to 40 CFR 155.58(c), this notice announces the availability of EPA’s interim registration review decisions for the pesticides shown in the following table.

TABLE—INTERIM REGISTRATION REVIEW DECISIONS

Registration review case name and No.	Pesticide docket ID No.	Chemical review manager, telephone number, email address
Alpha-chlorohydrin, Case 4120	EPA-HQ-OPP-2015-0726	Matthew Manupella, (703) 347-0411, manupella.matthew@epa.gov .
Hydrogen cyanamide, Case 7005	EPA-HQ-OPP-2007-1014	Dana L. Friedman, (703) 347-8827, friedman.dana@epa.gov .

Alpha-chlorohydrin. The registration review docket for alpha-chlorohydrin opened in December 2015. For alpha-chlorohydrin, the Agency expedited the registration review and opened the docket with the proposed interim decision and supporting documents. The only registered use for alpha-chlorohydrin is as a tamper-proof bait station/bait application delivery system for elimination of Norway rats. Alpha-chlorohydrin is approved for use in and around commercial/industrial facilities and sanitary sewers. The label prohibits the use of the product in any facility where children may be present, and no outdoor uses are permitted. Exposure to pollinators is unlikely because alpha-chlorohydrin is deployed in a bait

station. Therefore, pollinator data will not be required, nor will exposure to pollinators be assessed. The Agency has made the following interim decision: (1) No additional data are required at this time; (2) no changes to the affected registrations or their labeling are needed at this time; and (3) EPA does not expect alpha-chlorohydrin to have direct or indirect adverse effects to non-listed, and listed species or to adversely modify any designated critical habitat for such species, and is making a “no effect” determination under the Endangered Species Act for all listed species and designated critical habitat for such species. At this time, EPA is making no human health or environmental safety findings

associated with the Endocrine Disruptor Screening Program (EDSP) screening of alpha-chlorohydrin. EPA’s registration review decision for alpha-chlorohydrin will depend upon the result of an EDSP Federal Food, Drug and Cosmetic Act (FFDCA) section 408(p) determination.

Hydrogen cyanamide. Hydrogen cyanamide is a plant growth regulator used to promote uniform bud break in orchard fruit trees and vines; there are no residential uses. It is the only registered plant growth regulator available to induce uniform bud break in United States fruit production, and there are significant economic benefits associated with its use in areas where the critical number of chilling hours needed for bud break do not occur or are
