

publish anonymized results of the research under this Consortium. In accordance with 15 U.S.C. 3710a(c)(7)(B), NIST will withhold from public disclosure the data that specifically identifies a participant's microparticles for a period of five (5) years from the date any ERF values are generated, or until the participants grants NIST permission to disclose such data. NIST will not require the participants to pay a membership fee to participate in this Consortium. NIST will, however, require participants to contribute funds to reimburse NIST for the generation of any report requested by a participant for the ERF value assignments of participant's microparticles.

Participation Process: Eligibility will be determined by NIST using the information provided by an organization in response to this notice based on the information requested below.

An organization responding to this notice should provide the following information to NIST's Consortium Manager:

(1) *Type of microparticles:* Optimal sizes of microparticles are from 2 to 10 microns. If there are needs of characterization and ERF value assignment to other size particles (<2 microns or >10 microns), the present standard operating procedure can be modified to accommodate the requests.

(2) *Type of Instrument:* The Consortium is to assign ERF values for microparticles used primarily for flow cytometers. Any information about other instruments used by the organization is helpful to ensure that there is diversity in participants. For example, please indicate if the microparticles are used by the organization with fluorescence microscopes and spectrophotometers/spectrofluorimeters.

(3) Experience in production and characterization of microparticles, antibodies, and biological cells, and analysis of large data sets.

A responding organization should not include any business proprietary information in its response to this request for information. NIST will not treat any information provided in response to this request as proprietary information. NIST will notify each organization of its eligibility. In order to participate in this Consortium, each eligible organization must sign a Cooperative Research and Development Agreement (CRADA) for this Consortium. All participants to this

Consortium will be bound by the same terms and conditions.

South Atlantic Fishery Management Council (SAFMC); Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearings and scoping meetings.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a series of public hearings pertaining to Framework Amendment 4 to the Coastal Migratory Pelagic (CMP) Fishery Management Plan for the Gulf of Mexico and South Atlantic addressing management measures for Atlantic cobia in federal waters, and Amendment 41 to the Snapper Grouper Fishery Management Plan for the South Atlantic addressing measures for mutton snapper in federal waters. Scoping comments will also be accepted for options being considered in Joint Dolphin Wahoo Amendment 10 and Snapper Grouper Amendment 44 to address allocations for dolphin fish and yellowtail snapper in federal waters. Question and Answer sessions for Framework Amendment 4 to the CMP Fishery Management Plan and for Amendment 41 to the Snapper Grouper Fishery Management Plan will also be held via webinar. A Question and Answer session for Joint Dolphin Wahoo Amendment 10 and Snapper Grouper Amendment 44 will be held as part of the scoping session.

DATES: The Q&A sessions and series of public hearings/scoping meetings will be held from August 1 through August 17, 2016. All webinars and meetings will begin at 6 p.m.

Registration is required for the Q&A sessions and public hearing/scoping meetings held via webinar. Registration information will be posted on the SAFMC Web site at www.safmc.net as it becomes available.

ADDRESSES: *Council address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405. For additional information on the Webinars, Hearings, and Agenda, see Dates, Addresses, and Agenda.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer, SAFMC; phone: (843) 571-4366 or toll free (866) SAFMC-10; fax: (843) 769-4520; email: kim.iverson@safmc.net.

SUPPLEMENTARY INFORMATION: The Council is soliciting public hearing comments on proposed measures in CMP Framework Amendment 4 addressing proposed management measures for Atlantic cobia in federal waters from the Florida/Georgia line northward to New York. The Atlantic cobia fishery was closed to recreational harvest on June 20, 2016 in federal waters after NOAA Fisheries determined that the recreational annual catch limit had been exceeded in 2015. Exceeding the 2015 annual catch limit

triggered the accountability measures in place for Atlantic cobia to prevent overfishing, resulting in the shortened recreational season in 2016. Measures proposed in Framework Amendment 4 are designed to help ensure consistent and stable fishing opportunities for all participants in the fishery and include: (1) Reducing the recreational bag limit with a preferred alternative to reduce the daily bag limit from 2 per person/day to 1 per person/day; (2) establishing a recreational vessel limit with a preferred alternative of 3 per vessel/day; (3) modifying the recreational fishing year with a preferred alternative for the year to begin May 1st; (4) modifying the recreational minimum size limit; (5) modifying the current accountability measure; and (6) changes to the commercial harvest limit.

The Council is also soliciting public hearing comments on Snapper Grouper Amendment 41 addressing proposed management measures for mutton snapper. Stakeholders have expressed concerns about fishing pressure that occurs each spring as mutton snapper gather to spawn. Measures in Amendment 41 include actions to: (1) Modify the current annual catch limit for mutton snapper based on the most recent stock assessment; (2) reduce the current bag limit of 10 fish per person/day within the snapper aggregate with a preferred alternative of 3 fish per person/day year round; (3) establish a commercial trip limit with the preferred alternative of 300 pounds and 3 fish per person/day during the spawning season months (April-June); and (4) modify the current minimum size limit with the preferred alternative to increase the limit from 16 to 18 inches total length.

Public scoping comments are being solicited for measures proposed in Joint Dolphin Wahoo Amendment 10/ Snapper Grouper Amendment 44 addressing potential allocation measures for dolphin fish and yellowtail snapper. Public scoping occurs early in the amendment development process and the Council is soliciting input on proposed options that include a common pool allocation, a reserve category, temporary shifts in allocation, combined annual catch limits, a permanent allocation shift for dolphin and/or yellowtail snapper, and allocations by gear type for the commercial sector in the dolphin fishery. Measures proposed for dolphin would apply in federal waters along the entire Atlantic coast.
