BILLING CODE 6560-50-P

AGENCY FOR INTERNATIONAL DEVELOPMENT

48 CFR Part 752

RIN 0412-AA82

Agency for International Development Acquisition Regulation (AIDAR): Preference for Privately Owned U.S.-Flag Commercial Vessels

AGENCY: U.S. Agency for International Development.

ACTION: Proposed rule.

SUMMARY: This proposed rule is a companion document to the U.S. Agency for International Development (USAID) direct final rule (published in the “Rules and Regulations” section of this **Federal Register**), amending the AIDAR to conform to the current requirements of the Cargo Preference Act of 1954 and provide up-to-date submission instructions to the Maritime Administration (MARAD).

DATES: Submit comments on or before September 19, 2016.

ADDRESSES: Address all comments concerning this notice to Lyudmila Bond, Bureau for Management, Office of Acquisition and Assistance, Policy Division (M/OAA/P), Room 867-G, SA-44, Washington, DC 20523-2052. Submit comments by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Email: Submit electronic comments to lbond@usaid.gov. See **SUPPLEMENTARY INFORMATION** for file formats and other information about electronic filing.

Mail: USAID, Bureau for Management, Office of Acquisition & Assistance, Policy Division, Room 867-G, SA-44, 1300 Pennsylvania Ave. NW., Washington, DC 20523-2052.

FOR FURTHER INFORMATION CONTACT:

Lyudmila Bond, Telephone: 202-567-4753 or Email: lbond@usaid.gov.

SUPPLEMENTARY INFORMATION: USAID is publishing this amendment as a direct final rule because the Agency views it as a conforming and administrative amendment and does not anticipate any adverse comments. A detailed discussion of the rule is set forth in the preamble of the direct final rule.

If no adverse comments are received in response to the direct final rule, no further action will be taken related to this proposed rule.

If adverse comment(s) are received on the direct final rule, USAID will publish a timely withdrawal in the **Federal Register** informing the public that the direct final rule will not take effect. All public comments received on the direct final rule will be addressed in a subsequent final rule based on this proposed rule. USAID will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

A. Instructions

All comments must be in writing and submitted through one of the methods specified in the Addresses section above. All submissions must include the title of the action and RIN for this rulemaking. Please include your name, title, organization, postal address, telephone number, and email address in the text of the message.

Comments submitted by email must be included in the text of the email or attached as a PDF file. Please avoid using special characters and any form of encryption. Please note, however, that because security screening precautions have slowed the delivery and dependability of surface mail to USAID/Washington, USAID recommends sending all comments to the Federal eRulemaking Portal.

After receipt of a comment and until finalization of the action, all comments will be made available at <http://www.regulations.gov> for public review without change, including any personal information provided. Do not submit information that you consider to be

Confidential Business Information (CBI), Personally Identifiable Information or any information that is otherwise protected from disclosure by statute.

As noted above, in the “Rules and Regulations” section of this **Federal Register**, USAID is publishing a direct final rule with the same title that announces revisions to the Agency for International Development Acquisition Regulation (AIDAR). For detailed information on these revisions, please see the direct final rule.

Dated: July 1, 2016.

Mark Walter,

Acting Chief Acquisition Officer.

BILLING CODE 6116-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

RIN 0648-BF72

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of fishery management plan amendment; request for comments.

SUMMARY: The New England Fishery Management Council has submitted to NMFS Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan which proposes to incorporate a specifications process into the Atlantic Sea Scallop Fishery Management Plan and to change the start of the fishing year from March 1 to April 1. The ability to develop specifications to set annual or biennial allocations would allow for a more timely process for setting annual allocations than currently possible with framework adjustments. By adjusting the start of the scallop fishing year from March 1 to April 1, NMFS would be able to implement simple specification actions at the start of the fishing year on a more consistent basis. NMFS requests public comments on whether NMFS should approve this amendment and the draft Environmental Assessment incorporated in the amendment.

DATES: Comments must be received on or before September 19, 2016.

ADDRESSES: You may submit comments, identified by NOAA-NMFS-2016-0028, by any one of the following methods.

Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal.

1. Go to www.regulations.gov/#!/docketDetail;D=NOAA-NMFS-2016-0028,

2. Click the "Comment Now!" icon, complete the required fields.

3. Enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

Copies of Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan (Amendment 19), and of the draft Environmental Assessment (EA) and Regulatory Impact Review, are available from the Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. The EA/RIR is also accessible via the Internet at: www.greateratlantic.fisheries.noaa.gov.

FOR FURTHER INFORMATION CONTACT: Emily Gilbert, Fishery Policy Analyst, 978-281-9244.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires that each Regional Fishery Management Council submit any Fishery Management Plan (FMP) amendment it prepares to NMFS for review and approval, disapproval, or partial approval. The Magnuson-Stevens Act also requires that NMFS, upon receiving an FMP amendment, immediately publish notification in the **Federal Register** that the amendment is available for public review and comment. The New England Fishery Management Council approved Amendment 19, which would authorize the Council to develop specifications to set annual or biennial allocations and change the start of the scallop fishing year from March 1 to April 1. The Council submitted its final version of

Amendment 19 to NMFS for review on June 16, 2016. NMFS has declared a transmittal date of July 14, 2016. The Council has reviewed the Amendment 19 proposed rule regulations as drafted by NMFS and deemed them to be necessary and appropriate as specified in section 303(c) of the MSA. If approved by NMFS, this amendment would simplify the specifications-setting process and enable scallop allocations to be implemented closer to the scallop fishing year.

Background

The scallop fishery's management unit ranges from the shorelines of Maine through North Carolina to the outer boundary of the Exclusive Economic Zone. The Atlantic Sea Scallop Fishery Management Plan (FMP), established in 1982, includes a number of amendments and framework adjustments that have revised and refined the fishery's management. The Council has had to rely on the framework adjustment process to set scallop fishery measures, often referred to as specifications, that occur annually or biennially. Typically, these specifications include annual catch limits, days-at-sea (DAS), rotational area management, possession limits, access area trip allocations, individual fishing quota (IFQ) allocations, and allocations for vessels with Northern Gulf of Maine permits. These framework adjustments often include other management measures and are often implemented 2 to 3 months after the March 1 start of the scallop fishing year (March 1 through February 28/29).

Amendment 4 to the Scallop FMP (59 FR 2757, January 19, 1994), was a major shift in scallop fishery management. It established a limited access permit and effort control program and the new permits and effort control became effective on March 1, 1994. Framework Adjustment 1 (59 FR 36720, July 19, 1994) formally adopted March 1 as the start of the scallop fishing year. There was no biological or economic rationale originally for selecting this date as the start of the fishing year: Framework 1 codified the March 1 Amendment 4 effective date as the start of the fishing year so that allocations for 1994 spanned a 12-month period in order to ensure a reduction in fishing effort the first year of the DAS effort-control program. This fishing year has remained in place since that time, even though specifications have become increasingly more complicated with the development of the scallop access area rotation program in 2004 and IFQ fishery in 2010.

In the last 16 years following Framework 11, there have been 12 actions that set annual scallop specifications. Four of those actions set specifications for 2 years, which ensured that the second year's specifications for each of those actions were implemented on March 1. Aside from these biennial frameworks, we have only been able to set specifications by March 1 on two occasions, both involving special circumstances (i.e., the proposed rule was waived for one framework action and Council took final action 2 months earlier than usual for the other action).

Typically, the Council begins developing a specifications-setting framework in June. Scallop biomass estimates are provided through scallop surveys conducted by NMFS and other research institutions in the spring and summer. These estimates are not generally available for consideration until the early fall, at which point the Scallop Plan Development Team (PDT) develops and analyzes fishery allocation alternatives for Council consideration. In order to incorporate the most recent available scallop survey information into these alternatives, which has proved essential in setting appropriate access area catch levels, the Council has been taking final action in November and NMFS has typically implemented allocations in May or June.

In 2013, the Council began developing specifications on an annual basis via frameworks at the request of the industry to avoid biennial specifications that resulted in the second year specifications being out of sync with what the most recent annual surveys indicate could be harvested in a given area. However, this meant that the annual specifications were likely to be late every year due to availability of relevant data. To address this problem, the Council has been specifying "default" specifications for the year after annual specifications are set to fill the gap between the end of the fishing year and the setting of new specifications for the next fishing year. Implementing these "default" specifications every year is an administrative burden to NMFS staff and can result in complex inseason changes in fishery specifications. In addition, default specifications lead to confusion and uncertainty for the fleet, as well as potentially negative impacts on the resource and fishery if effort shifts into areas or seasons that are less desirable as a result of delayed measures.

The Council initiated Amendment 19 to develop an alternative to the framework adjustment process to

implement specifications closer to the start of the scallop fishing year. To address these timing issues while still supporting the current timeline for integrating the best available science in to the management process, Amendment 19 proposes to:

- Establish a specifications process so that allocations would not be tied only to actions that tend to have longer timelines (e.g., frameworks or amendments); and

- Adjust the scallop fishing year to April 1 through March 31.

Adding the ability to adjust allocations through a specifications setting process would produce some time-savings because the Council would not be required to discuss measures over the course of two Council meetings, as is required under the framework adjustment process. However, it would not guarantee allocations would be in place by March 1 of each year. As a result, the Council is recommending that the fishing year be changed to April 1 through March 31. Pushing the fishing year back one month would increase the likelihood that NMFS would be able to implement simple specifications actions at the start of the scallop fishing year on a more consistent basis, avoiding the need to implement default measures. Amendment 19 would also adjust the scallop permit year so that it continues to match the official fishing year (i.e., scallop permits would need to be renewed by April 1 of each year).

In addition, NMFS and Council staff discussed other, non-regulatory streamlining initiatives that will result in time-savings in implementing final allocations. These include preparing a decision draft of an EA immediately following the Council's final action on a framework and publishing a proposed rule prior to NMFS' formal review of the EA. These measures will assist in implementing simple, non-controversial specifications actions on a quicker timeline than typical frameworks.

We are soliciting public comments on Amendment 19 and its incorporated documents through the end of the comment period stated in this notice of availability. A proposed rule that would implement Amendment 19 will be published in the **Federal Register** for additional public comment. NMFS will evaluate the proposed rule under the procedures of the Magnuson-Stevens Act. Public comments on the proposed rule must be received by the end of the

comment period provided in this notice of availability to be considered in the approval/disapproval decision on Amendment 19. All comments received by close of business on September 19, 2016, whether specifically directed to Amendment 19 or the proposed rule, will be considered in the approval/disapproval decision on the amendment.

Comments received after that date will not be considered in the decision to approve or disapprove Amendment 19, including those postmarked or otherwise transmitted, but not received by NMFS, by the last day of the comment period.

Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Annual Specifications; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a typographical error in the **ADDRESSES** section to a proposed rule published on June 23, 2016.

DATES: Comments on the proposed rule must be submitted on or before July 25, 2016.

ADDRESSES: You may submit comments on this document identified by NOAA-NMFS-2016-0048, by any of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/ #/docketDetail;D=NOAA-NMFS-2016-

0048, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- *Mail:* Submit written comments to William W. Stelle, Jr., Regional Administrator, West Coast Region, NMFS, 7600 Sand Point Way NE., Seattle, WA 98115-0070; Attn: Joshua Lindsay.

Instructions: Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Copies of the report "Pacific Mackerel (*Scomber japonicus*) Stock Assessment for USA Management in the 2015-2016 Fishing Year" may be obtained from the West Coast Region (see **ADDRESSES**).

FOR FURTHER INFORMATION CONTACT: Joshua Lindsay, West Coast Region, NMFS, (562) 980-4034, Joshua.Lindsay@noaa.gov.

SUPPLEMENTARY INFORMATION:

Need for Correction

In the **ADDRESSES** section of a proposed rule (81 FR 40844, June 23, 2016) on page 40845, in the first column, NMFS used an incorrect year, "2015" rather than "2016", in the document identifier and Federal e-Rulemaking Portal hyperlink. The **ADDRESSES** section has been corrected in this document.
