International Affairs; Antarctic Marine Living Resources Convention Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule.

SUMMARY: NMFS proposes revising the regulations that implement conservation measures adopted by the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR or Commission). These revisions would be in addition to those proposed on December 29, 2015, that would revise procedures and requirements for filing import, export, and re-export documentation for certain fishery products, to integrate the collection of trade documentation within the government-wide International Trade Data System (ITDS) and require electronic information collection. The purposes of the revisions in this proposed rule are to streamline and clarify the regulations, shift deadlines for advance notice of intended fishing activities, distinguish between first

receivers and dealers of Antarctic marine living resources (AMLR), reduce the time for advance notice of imports of *Dissostichus* species, and add transshipment notification requirements. The sections of these regulations would be reorganized to group requirements related to the trade of Antarctic marine living resources and those that apply to fishing activities. Additionally, this action would update the regulations to reflect Commission adopted revisions to existing conservation measures and changes made to the Antarctic Marine Living Resources Convention Act through the Illegal, Unreported, and Unregulated Fishing Enforcement Act of 2015.

DATES: Written comments must be received by August 22, 2016.
