

2. In the NOPR, the Commission proposed to amend its regulations to require each regional transmission organization and independent system operator to electronically deliver to the Commission, on an ongoing basis, data required from its market participants that would: (i) Identify the market participants by means of a common alpha-numeric identifier; (ii) list their "Connected Entities," which included entities that have certain ownership, employment, debt, or contractual relationships with the market participants; and (iii) describe in brief the nature of the relationship of each Connected Entity. The Commission proposed to collect such information to assist with its screening and investigative efforts to detect market manipulation. The Commission has since developed a new proposal, as reflected in the concurrently issued Data Collection NOPR, which is substantially narrower than the proposal in the instant NOPR, and streamlines and consolidates the collection of market-based rate information with new information proposed to be collected for analytics and surveillance purposes. Among other things, in the Data Collection NOPR, the Commission proposes to require market-based rate sellers and certain market participants in Commission-jurisdictional organized electric markets to submit certain, defined information about their financial and legal connections to other entities. While the Data Collection NOPR proposes to collect similar information to that which was proposed in the NOPR in this proceeding, this new proposal presents substantial revisions, thereby superseding the proposal in the instant NOPR.

3. The Commission therefore withdraws the NOPR and terminates this rulemaking proceeding.

By direction of the Commission.

Dated: July 21, 2016.

Partial Approval and Partial Disapproval of Attainment Plan for Oakridge, Oregon PM_{2.5} Nonattainment Area

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: On December 12, 2012, the Oregon Department of Environmental Quality (ODEQ) submitted, on behalf of the Governor of Oregon, a State Implementation Plan (SIP) submission to address violations of the National Ambient Air Quality Standards (NAAQS) for particulate matter with an aerodynamic diameter of less than or equal to a nominal 2.5 micrometers in diameter (PM_{2.5}) for the Oakridge PM_{2.5} nonattainment area (2012 SIP submission). The Lane Regional Air Protection Agency (LRAPA) in coordination with ODEQ developed the 2012 SIP submission for purposes of attaining the 2006 24-hour PM_{2.5} NAAQS. On February 22, 2016, the ODEQ withdrew certain provisions of the 2012 SIP submission (2016 SIP withdrawal). The Environmental Protection Agency (EPA) has evaluated whether the remaining portions of the Oakridge 2012 SIP submission meet the applicable Clean Air Act (CAA) requirements. Based on this evaluation, the EPA is proposing to partially approve and partially disapprove the remaining portions of the 2012 SIP submission.

I. Background for the EPA's Proposed Action

A. History of the PM_{2.5} NAAQS

On July 18, 1997, the EPA promulgated the 1997 PM_{2.5} NAAQS, including annual standards of 15.0 µg/m³ based on a 3-year average of annual mean PM_{2.5} concentrations, and 24-hour (or daily) standards of 65 µg/m³ based on a 3-year average of the 98th percentile of 24-hour concentrations (62 FR 38652).
