

Total Annual Cost: No cost.
Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:
 There is no assurance of confidentiality provided to respondents concerning this information collection. However, respondents may request materials or information submitted to the Commission or to the Administrator be withheld from public inspection under 47 C.F.R 0.459 of the FCC's rules.

Needs and Uses: The Commission seeks to revise OMB 3060-0853 to conform the FCC Forms 479, 486 and 500 to changes implemented in the *Order and FNPRM (E-rate Modernization Order)* (WC Docket No. 13-184, FCC 14-99; 79 FR 49160, August 19, 2014). The FCC Form 486 is being transitioned to an online platform for applicants that seek universal service support for funding year 2016 and later. Applicants needing to file a FCC Form 486 for a funding year earlier than funding year 2016 will need to use the current FCC Form 486 which is an electronic or paper filing. The FCC Form 500 will also be transitioned to an online platform.

The Commission will submit this information collection to OMB during this comment period to obtain the full three-year clearance from them. The purpose of this information is to ensure that schools and libraries that are eligible to receive discounted Internet Access services (Category One), and Broadband Internal Connections, Managed Internal Broadband Services, and Basic Maintenance of Broadband Internal Connections (Basic Maintenance) (known together as Category Two Services) have in place Internet safety policies. Schools and libraries receiving these services must certify, by completing a FCC Form 486 (Receipt of Service Confirmation and Certification of Compliance with the Children's Internet Protection Act), that respondents are enforcing a policy of Internet safety and enforcing the operation of a technology prevention measure. Also, respondents who received a Funding Commitment Decision Letter indicating services eligible for universal service funding must file FCC Form 486 to indicate their service start date and to start the payment process. In addition, all members of a consortium must submit signed certifications to the Billed Entity of their consortium using a FCC Form 479; Certification by Administrative Authority to Billed Entity of Compliance with Children's Internet Protection Act, in language consistent with the certifications adopted for the FCC Form 486. Consortia must, in turn,

certify collection of the FCC Forms 479 on the FCC Form 486. FCC Form 500 is used by E-rate participants to make adjustments to previously filed forms, such as changing the contract expiration date filed with the FCC Form 471, changing the funding year service start date filed with the FCC Form 486, cancelling or reducing the amount of funding commitments, requesting extensions of the deadline for non-recurring services, and notifying USAC of equipment transfers. All of the requirements contained herein are necessary to implement the congressional mandate for universal service.

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it

displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before August 31, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A_Fraser@omb.eop.gov; and to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the "Supplementary Information" section below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418-2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

Estimated Time per Response: 2 hours-30 hours.

Frequency of Response: On occasion, one-time and every two year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 4(i), 302, 303(c), 303(f), 303(g) and 303(r), and 309(a).

Total Annual Burden: 3,612 hours.

Total Annual Cost: No Cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is a minimal exemption from the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4) and 47 CFR 0.459(d) of the Commission's rules that is granted for trade secrets, which may be submitted to the Commission as part of the documentation of the test results. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection after this 60 day comment period to obtain the full three-year clearance from the Office of Management and Budget (OMB).

Description of Measurement Facilities

The Commission established uniform technical standards for various radio-frequency equipment operating under the guidelines established in the FCC rules, which include smartphones, personal computers, garage door openers, baby monitors, etc. In order to ensure that technical standards are applied uniformly, the Commission requires testing facilities and manufacturers to follow the standardized measurement procedures and practices:

(a) 47 CFR part 2 of the Commission's rules requires each Electro-Magnetic Compatibility (EMC) testing facility that performs equipment testing in support of any request for equipment authorization to be accredited by Commission-approved accrediting bodies.

(b) A testing laboratory that is accredited by a Commission-approved accrediting body is required to file a test site description with the accreditation body for review as part of the accreditation assessment. This information will document that the EMC testing facility complies with the testing standards used to make the measurements that support any request for equipment authorization.

(c) The EMC testing facility must provide updated documentation to the accreditation bodies if there are changes in the measurement facility or certify at least every two years that the facility's equipment and test set-up have not changed.

(d) The accreditation body will provide the Commission with specific

summary information about each testing laboratory that it has accredited. The Commission will maintain a list of accredited laboratories that it has recognized.

The Commission or a Telecommunications certification body uses the information from the test sites and the supporting documentation, which accompany all requests for equipment authorization:

(a) To ensure that the data are valid and that proper testing procedures are used;

(b) To ensure that potential interference to radio communications is controlled; and

(c) To investigate complaints of harmful interference or to verify the manufacturer's compliance with Section 47 CFR 2.948 of the Commission's rules.

Accreditation Bodies

47 CFR Section 2.949 of the Commission's rules sets forth the requirements for accreditation bodies seeking recognition from the FCC as a laboratory accreditation body. Accreditation bodies seeking such recognition from the Commission must file a report of their qualifications with the Office of Engineering and Technology (OET). They are only required to file this information once.

Other Information

In addition, the referenced 47 CFR part 15 rules (47 CFR 15.117(g)(2)) require that certain equipment manufacturers file information concerning the testing of TV receivers, which tune to UHF channels, to show that the UHF channels provide approximately the same degree of tuning accuracy with approximately the same expenditure of time and effort.
