Total Annual Burden: 723 hours.

Annual Cost Burden: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

There is no need for confidentiality with is collection of information.

Needs and Uses: Section 90.155 provides that a period longer than 12 months may be granted to local government entities to place their stations in operation on a case-by-case basis upon a showing of need. This rule provides flexibility to state and local governments. An application for extension of time to commence service may be made on FCC Form 601. Extensions of time must be filed prior to the expiration of the construction period. Extensions will be granted only if the licensee shows that the failure to commence service is due to causes beyond its control.

In 1995, via a Report and Order in PR Docket No. 93–61; FCC 95–41, published at 60 FR 15248, the Commission established construction deadlines for Location and Monitoring Service (LMS) licensees in the market-licensed multilateration LMS services. On July 8, 2004, the Commission adopted a Report and Order under WT Docket Nos. 02–381, 01–14, and 03–202; FCC 04–166, published at 69 FR 75144, that amended § 90.155 to provide holders of multilateration location service authorizations with five- and ten-year benchmarks to place in operation their base stations that utilize multilateration technology to provide multilateration location service to one-third of the Economic Area's (EA's) population within five years of initial license grant, and two-thirds of the population within ten years. At the five- and ten-year benchmarks, licensees are required to file a map and FCC Form 601 showing compliance with the coverage requirements pursuant to § 1.946 of the Commission's rules.

On January 31, 2007, via an Order on Reconsideration, and Memorandum Opinion and Order, under DA 07–479, the FCC granted two to three additional years to meet the five-year construction requirement for certain multilateration Location and Monitoring Service Economic Area licenses, and extended the 10-year requirement for such licenses two years.

These requirements will be used by Commission personnel to evaluate whether or not certain licensees are providing substantial service as a means

of complying with their construction requirements, or have demonstrated that an extended period of time for construction is warranted.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154, 155, 201–206, 214, 218–220, 251, 252, 254, 256, 303(r), 332, 403, 405, 410, and 1302.

Total Annual Burden: 1,780 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: We note that USAC must preserve the confidentiality of all data obtained from respondents; must not use the data

except for purposes of administering the universal service programs; and must not disclose data in company-specific form unless directed to do so by the Commission.

Needs and Uses: The Commission is requesting approval for this new collection. In March 2016, the Commission adopted an order reforming its universal service support program in areas served by rate-of-return carriers. Connect America Fund; ETC Annual Reports and Certifications; Establishing Just and Reasonable Rates for Local Exchange Carriers; Developing a Unified Intercarrier Compensation Regime, WC Docket Nos. 10–90, 14–58, 07–135, 05–337, 03–109; CC Docket Nos. 01–92, 96–45, Report and Order, Order and Order on Reconsideration, and Further Notice of Proposed Rulemaking, FCC 16–33 (Rate-of-Return Order).

The Commission adopted a voluntary path for rate-of-return carriers to receive model-based universal service support in exchange for making a commitment to deploy broadband-capable networks meeting certain service obligation to a pre-determined number of eligible locations by state. The Commission addressed the requirement that carriers electing model-based support must notify the Commission of that election and their commitment to satisfy the specific service obligations associated with the amount of model support. In addition, the Commission adopted reforms to the universal service mechanisms used to determine support for rate-of-return carriers not electing model-based support. Among other such reforms, the Commission adopted an operating expense limitation to improve carriers' incentives to be prudent and efficient in their expenditures, a capital investment allowance to better target support to those areas with less broadband deployment, and broadband deployment obligations to promote "accountability from companies receiving support to ensure that public investment are used wisely to deliver intended results." This information collection addresses the new burdens associated with those reforms.

Title: Inmate Calling Services Data Collection, One-Time Data Collection.

Form Number: FCC Form 2300.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 15 respondents; 15 responses.

Estimated Time per Response: 80 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 1, 4(i), 4(j), 201, 276, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i)–(j), 201, 276 and 303(r).

Total Annual Burden: 1,200 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission anticipates providing confidential treatment for proprietary information submitted by inmate calling service (ICS) providers. Parties that comply with the terms of a protective order for the proceeding will have an opportunity to comment on the data.

Needs and Uses: Section 201 of the Communications Act of 1934 Act (Act), as amended, 47 U.S.C. 201, requires that ICS providers' interstate rates and practices be just and reasonable. Section 276 of the Act, 47 U.S.C. 276, requires that payphone service providers (including those, such as ICS providers, that serve correctional institutions) be fairly compensated. The Commission's Second Report and Order and Third Further Notice of Proposed Rulemaking (FNPRM) requires that all ICS providers comply with a one-time mandatory data collection. The data collection requires ICS providers to submit data on ICS calls, various ICS costs, company and contract information, information about facilities served, ICS revenues, ancillary fees, and mandatory taxes and fees. ICS providers are also required to apportion direct costs for each cost category and to explain how joint and common costs are apportioned among the facilities they serve and the services they provide. The data will be used to enable the Commission to assess the costs related to ICS and ensure that ICS rates and fees related to ICS rates remain just, reasonable, and fair, as required by sections 201 and 276 of the Act.
