The Scotts Co. and Monsanto Co.; Notice of Intent To Prepare an Environmental Impact Statement for Determination of Nonregulated Status of Glyphosate-Resistant Creeping Bentgrass

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are announcing that the Animal and Plant Health Inspection Service intends to prepare an environmental impact statement (EIS) to evaluate the environmental impacts that may result from the approval of a new petition for nonregulated status of glyphosate-resistant creeping bentgrass (*Agrostis stolonifera* L.) (event ASR368) from The Scotts Company and Monsanto Company following withdrawal of their 2003 petition. Issues to be addressed in the EIS include the potential environmental impacts to managed natural and non-agricultural lands, agricultural production systems, the physical environment, biological resources, human health, socioeconomic, federally listed threatened or endangered species, and cultural or historic resources. This notice of intent (NOI) replaces a

previous NOI published in September 2004 and initiates a fresh public scoping process and stakeholder engagement for the purpose of preparing an EIS. We are requesting public comments to further frame the scope of the issues to be included in the EIS, including alternatives and environmental impacts.

DATES: We will consider all comments that we receive on or before September 2, 2016.
