GE Industrial Solutions Service Engineering Organization Atlanta, Georgia: Notice of Revised Determination After Statutory Reconsideration

As required by the Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), which was enacted as Title IV of the Trade Preferences Extension Act of 2015, Public Law 114-27, section 405(a)(1)(A), the investigation into this petition was reopened for a reconsideration investigation to apply the requirements for worker group eligibility under chapter 2 of title II of the Trade Act of 1974, as amended by the TAARA 2015, to the facts of this petition (statutory reconsideration).

The initial investigation, initiated June 12, 2014, resulted in a negative determination, issued on September 30, 2014, that was based on worker separations not being attributable to increased imports or a shift in production. A complaint was filed with the United States Court of International Trade (USCIT) on November 28, 2014 (No. 14-00314); however, a joint dismissal of the case was filed on July 20, 2015. During the Remand investigation, the worker group was clarified to be GE Industrial Solutions Service Engineering Organization, Atlanta, Georgia (hereafter referred to as "GE Industrial Solutions Service Engineering Organization"). The workers' firm is engaged in activities related to the supply of designing, testing, documenting, and engineering services.

"Firm includes an individual proprietorship, partnership, joint venture, association, corporation (including a development corporation), business trust, cooperative, trustee in bankruptcy, and receiver under decree of any court." 29 CFR 90.2
