

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

Copies of the completed draft EIS will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 3).

Becoming an Intervenor

Once the Applicants file their application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "efiling" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the project.

[Docket No. CP15-558-000]

PennEast Pipeline Company, LLC; Notice of Motion

On June 15, 2016, the New Jersey Conservation Foundation and Stony Brook-Millstone Watershed Association (Movants), filed with the Federal Energy Regulatory Commission (Commission) a pleading styled as a Rule 206 Complaint and Rule 212 Motion against PennEast Pipeline Company, LLC (PennEast), alleging that PennEast's application for a Certificate of Public Convenience and Necessity does not contain substantial evidence of public benefit, as required by the Natural Gas Act.¹ The pleading further requests the Commission initiate an evidentiary hearing to "garner substantial evidence" and develop the record upon which the Commission would rely in making its "ultimate determination regarding PennEast's certificate of public convenience and necessity."

While styled as a complaint under Rule 206, the pleading, filed in the PennEast certificate proceeding, Docket No. CP15-558-000, seeks resolution of the issue pending before the Commission in that proceeding, *i.e.*, whether PennEast's request for a certificate of convenience and necessity is supported by substantial evidence. Accordingly, action on the Movants' request for an evidentiary hearing, as well as consideration of the merits of the Movants' allegations, will take place in that forum.
