

DEPARTMENT OF JUSTICE**Notice of Lodging of Proposed Consent Judgment Under the Resource Conservation and Recovery Act**

On August 1, 2016, the Department of Justice lodged a proposed Consent Judgment with the United States District Court for the Eastern District of New York in the lawsuit entitled *United States v. Nedjet Yetim, et al.*, Civil Action No. 14-0847.

The proposed consent judgment will resolve the United States' claims under Section 9006 of the Resource Recovery and Conservation Act, as amended, on behalf of the U.S. Environmental Protection Agency, against the following defendants: Rachelann Yetim, Black Realty, Inc., Fast Gasoline Station, Inc., TAG Gasoline, Inc., NGRV Realty Co., Inc., and Venus Bukey Realty, Inc. (the "Rachelann Defendants"). The United States alleges that the Rachelann Defendants violated the regulations set forth at 40 CFR part 280, governing underground storage tanks ("USTs"), at three facilities—automobile fueling stations with USTs—that the Rachelann Defendants have owned and/or operated at the following locations:

1. 653 Hempstead Turnpike, Elmont, New York
2. 725 Wyandanch Ave, North Babylon, New York
3. 4305 Austin Blvd., Island Park, New York

The consent judgment requires the Rachelann Defendants to pay a civil penalty of \$60,000, which was calculated after conducting an ability-to-pay analysis. The consent judgment also provides for injunctive relief, which will consist of maintaining compliance with the UST regulations and submission of reports demonstrating such compliance, to be implemented over the next three years at the Rachelann Defendants' facilities.

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

I. Background

The ETA-5130, Benefit Appeals Report, contains information on the number of unemployment insurance appeals and the resultant decisions classified by program, appeals level, cases filed and disposed of (workflow), and decisions by level, appellant, and issue. The data on this report are used by the Department of Labor to monitor the benefit appeals process in the State Workforce Agencies (SWAs) and to develop any needed plans for remedial action. The data are also needed for workload forecasts and to determine administrative funding. If this information were not available, developing problems might not be discovered early enough to allow for timely solutions and avoidance of time consuming and costly corrective action.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of

law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB 1205-0172.

Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

- * Enhance the quality, utility, and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.
