[Docket No. 120815345–3525–02]

RIN 0648–XE774

**Snapper-Grouper Fishery of the South Atlantic; 2016 Recreational Accountability Measure and Closure for the South Atlantic Other Jacks Complex**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS implements an accountability measure (AM) for the recreational sector for the other jacks complex (lesser amberjack, almaco jack, and banded rudderfish) in the South Atlantic for the 2016 fishing year through this temporary rule. NMFS projects that recreational landings of the other jacks complex will reach their combined recreational annual catch limit (ACL) by August 9, 2016. Therefore, NMFS closes the recreational sector for this complex on August 9, 2016, through the remainder of the fishing year in the exclusive economic zone (EEZ) of the South Atlantic. This closure is necessary to protect the lesser amberjack, almaco jack, and banded rudderfish resources.

**DATES:** This rule is effective 12:01 a.m., local time, August 9, 2016, until 12:01 a.m., local time, January 1, 2017.

**FOR FURTHER INFORMATION CONTACT:** Mary Vara, NMFS Southeast Regional Office, telephone: 727–824–5305, email: [mary.vara@noaa.gov](mailto:mary.vara@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The snapper-grouper fishery of the South Atlantic includes lesser amberjack, almaco jack, and banded rudderfish, and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The recreational ACL for the other jacks complex is 267,799 lb (121,472 kg), round weight. Under 50 CFR 622.193(l)(2)(i), NMFS is required to close the recreational sector for the other jacks complex when the

recreational ACL has been reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that the recreational sector for this complex is projected to reach its ACL by August 9, 2016. Therefore, this temporary rule implements an AM to close the recreational sector for the other jacks complex in the South Atlantic, effective 12:01 a.m., local time, August 9, 2016, until January 1, 2017, the start of the next fishing year.

During the recreational closure, the bag and possession limits for the fish in the other jacks complex in or from the South Atlantic EEZ are zero. Additionally, NMFS closed the commercial sector for the other jacks complex effective on August 9, 2016, upon reaching the commercial ACL. Therefore, on August 9, 2016, no commercial or recreational harvest of fish in the other jacks complex from the South Atlantic EEZ is permitted for the remainder of 2016. The commercial sector for the other jacks complex reopens on January 1, 2017.

**Classification**

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of the fish in the other jacks complex, a component of the South Atlantic snapper-grouper fishery, and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.193(l)(2)(i) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and public comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA) finds that the need to immediately implement this action to close the recreational sector for the other jacks complex constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such procedures are unnecessary and contrary to the public interest. Such procedures are unnecessary because the rule implementing the AM itself has been subject to notice and comment, and all that remains is to notify the public of the closure. Such procedures are contrary to the public interest because of the need to immediately implement this action to protect the other jacks complex. Prior notice and

opportunity for public comment would require time and would potentially allow the recreational sector to exceed its ACL.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: August 2, 2016.

RIN 0648–XE778

**Fisheries of the Northeastern United States; Small-Mesh Multispecies Fishery; Adjustment to the Commercial Northern Red Hake Inseason Possession Limit**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; inseason adjustment.

**SUMMARY:** We announce the reduction of the commercial possession limit for northern red hake for the remainder of the 2016 fishing year. This action is required to prevent the northern red hake total allowable landing limit from being exceeded. This announcement informs the public that the northern red hake possession limit is reduced.

**DATES:** Effective August 8, 2016, through April 30, 2017.

**FOR FURTHER INFORMATION CONTACT:** Reid Lichwell, Fishery Management Specialist, 978–675–9112.

**SUPPLEMENTARY INFORMATION:** The small-mesh multispecies fishery is managed primarily through a series of exemptions from the Northeast Multispecies Fisheries Management Plan. Regulations governing the red hake fishery are found at 50 CFR part 648. The regulations describing the process to adjust inseason commercial possession limits of northern red hake are described in § 648.86(d)(4) and (5). These regulations require the Regional Administrator to reduce the northern red hake possession limit from 3,000 lb (1,361 kg) to 1,500
