BILLING CODE 8320-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[EPA-HQ-OAR-2010-0505; FRL-9950-34-OAR]

Reconsideration of the Oil and Natural Gas Sector: New Source Performance Standards; Final Action

AGENCY: Environmental Protection Agency (EPA).

ACTION: Denial of petitions for reconsideration.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is providing notice that it has responded to 11 petitions for reconsideration of the final rule titled “Oil and Natural Gas Sector: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants Reviews,” published in the **Federal Register** on August 16, 2012, and seven petitions for reconsideration of subsequent amendments published in the **Federal Register** on September 23, 2013, and December 31, 2014. The agency previously granted reconsideration of several discrete issues and took final action on reconsideration through documents published in the **Federal Register** on September 23, 2013, December 31, 2014, August 12, 2015, and June 3, 2016. The Administrator denied the remaining requests for reconsideration in separate letters to the petitioners. The basis for the EPA’s action is set out fully in a separate document available in the rulemaking docket.

DATES: Effective August 10, 2016.

FOR FURTHER INFORMATION CONTACT: Ms. Lisa Thompson, Sector Policies and Programs Division (E143-05), Office of Air Quality Planning and Standards, Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-9775; fax number: (919) 541-3470; email address: thompson.lisa@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Where can I get a copy of this document and other related information?

A copy of this **Federal Register** notice, the petitions for reconsideration,

and the separate document describing the full basis for this action are available in the docket the EPA established under Docket ID No. EPA-HQ-OAR-2010-0505. In addition, following signature, an electronic copy of this final action and the document will be available on the World Wide Web (WWW) at the following address: <https://www3.epa.gov/airquality/oilandgas/actions.html>.

II. Judicial Review

Section 307(b)(1) of the Clean Air Act (CAA) specifies which Federal Courts of Appeal have venue over petitions for review of final EPA actions. This section provides, in part, that “a petition for review of action of the Administrator in promulgating . . . any standard of performance or requirement under section [111] of [the CAA],” or any other “nationally applicable” final action, “may be filed only in the United States Court of Appeals for the District of Columbia.”

The EPA has determined that its action denying the petitions for reconsideration is nationally applicable for purposes of CAA section 307(b)(1) because the action directly affects the Oil and Natural Gas Sector: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants Reviews, which are nationally applicable CAA section 111 standards. Thus, any petitions for review of the EPA’s decision to deny petitioners’ requests for reconsideration must be filed in the United States Court of Appeals for the District of Columbia Circuit by October 11, 2016.

III. Description of Action

On August 16, 2012, pursuant to CAA section 111(b) of the CAA, the EPA published the final rule titled “Oil and Natural Gas Sector: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants Reviews.” 77 FR 49490. The EPA published subsequent amendments to the rule on September 23, 2013 (78 FR 58416), and December 31, 2014 (79 FR 79018). Following publication of these final rules, the Administrator received petitions for reconsideration of certain provisions of the final rules pursuant to CAA section 307(d)(7)(B).

CAA section 307(d)(7)(B) requires the EPA to convene a proceeding for reconsideration of a rule if a party raising an objection to the rule “can demonstrate to the Administrator that it was impracticable to raise such objection within [the public comment period] or if the grounds for such objection arose after the period for public comment (but within the time

specified for judicial review) and if such objection is of central relevance to the outcome of the rule.” The requirement to convene a proceeding to reconsider a rule is, thus, based on the petitioner demonstrating to the EPA both: (1) That it was impracticable to raise the objection during the comment period, or that the grounds for such objection arose after the comment period, but within the time specified for judicial review (*i.e.*, within 60 days after publication of the final rulemaking notice in the **Federal Register**, see CAA section 307(b)(1)); and (2) that the objection is of central relevance to the outcome of the rule.

The EPA received 18 petitions for reconsideration of the new source performance standards and subsequent amendments from the following 13 organizations or groups of organizations:

- America’s Natural Gas Alliance and the American Exploration and Production Council (ANGA & AXPC)
- American Petroleum Institute (API) (3 petitions)
- California Communities Against Toxics, California Safe Schools, Clean Air Council, Coalition For A Safe Environment, Desert Citizens Against Pollution, Natural Resources Defense Council, and the Sierra Club (Earthjustice)
- Clean Air Council, Clean Air Task Force, Environmental Defense Fund, Group Against Smog and Pollution, the Natural Resources Defense Council, and the Sierra Club
- Gas Processors Association (GPA) (2 petitions)
- Independent Petroleum Association of America, Independent Oil and Gas Association of West Virginia, Inc., Kentucky Oil & Gas Association, Inc., Indiana Oil and Gas Association, Pennsylvania Independent Oil & Gas Association, Ohio Oil and Gas Association, Illinois Oil & Gas Association
- Interstate Natural Gas Association of America
- M-Squared Products & Services, Inc. (M-Squared)
- REM Technology Inc.
- Texas Commission On Environmental Quality (TCEQ)
- Texas Oil & Gas Association (TXOGA) (2 petitions)
- Texas Pipeline Association
- Western Energy Alliance (WEA) (2 petitions)

The EPA previously granted reconsideration of all issues in seven of the petitions and on several discrete issues contained in some of the other petitions it received and took final action on reconsideration through documents published in the **Federal Register** on September 23, 2013, December 31, 2014, August 12, 2015, and June 3, 2016. The EPA has now denied the issues in the remaining 11 petitions as not satisfying one or both of the statutory conditions for compelled

reconsideration. We discuss each of the petitions we are denying and the basis for those denials in a separate document titled "Denial of Petitions for Reconsideration of Certain Issues: Oil and Natural Gas New Source Performance Standards (40 CFR part 60, subpart OOOO)." For reasons set out in the document, the remaining issues raised in petitions for review from ANGA & AXPC, API, Earthjustice, GPA, M-Squared, TCEQ, TXOGA, and WEA are denied.¹

Dated: July 29, 2016.

Gina McCarthy,
Administrator.

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 150916863-6211-02]

RIN 0648-XE795

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch in the Western Aleutian district (WAI) of the

¹ The Administrator is also sending an individual letter to each of the petitioners announcing her decision on their petitions.

Bering Sea and Aleutian Islands management area (BSAI) by vessels participating in the BSAI trawl limited access fishery. This action is necessary to prevent exceeding the 2016 total allowable catch (TAC) of Pacific ocean perch in this area allocated to vessels participating in the BSAI trawl limited access fishery.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), August 5, 2016, through 2400 hrs, A.l.t., December 31, 2016.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2016 TAC of Pacific ocean perch, in the WAI, allocated to vessels participating in the BSAI trawl limited access fishery was established as a directed fishing allowance of 161 metric tons by the final 2016 and 2017 harvest specifications for groundfish in the BSAI (81 FR 14773, March 18, 2016).

In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch in the WAI by vessels participating in the BSAI trawl limited access fishery.

After the effective dates of this closure, the maximum retainable

amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA) finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of the Pacific ocean perch directed fishery in the WAI for vessels participating in the BSAI trawl limited access fishery. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 4, 2016. The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 5, 2016.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
