

concerning the extension of time limits for submissions in antidumping and countervailing duty proceedings: *Final Rule*, 78 FR 57790 (September 20, 2013). The modification clarifies that parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by the Secretary. In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning U.S. Customs and Border Protection data; and (5) quantity and value questionnaires. Under certain circumstances, the Department may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, the Department will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which the Department will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: August 5, 2016.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 26.

Needs and Uses: This request is for revision and extension of an existing information collection.

The Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* (Magnuson-Stevens Act) authorizes the North Pacific Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. NOAA's National Marine Fisheries Service (NMFS) manages the U.S. groundfish fisheries of the exclusive economic zone off Alaska under the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands (BSAI) Management Area. The fishery management plans (FMPs) were approved by the Secretary of Commerce

under authority of the Magnuson-Stevens Act as amended in 2006. The groundfish FMPs are implemented by regulations at 50 CFR part 679. The Crab FMP is implemented by regulations at 50 CFR part 680.

In the last decade or more, the Council has developed several cooperative programs as options in larger catch share programs. As part of those cooperative programs, the Council required that cooperatives submit an annual written report detailing various activities of the cooperative. These reports are intended to be a resource for the Council to track the effectiveness of the cooperative and their ability to meet the Council's goals. Additionally, they are a tool for the cooperatives to provide feedback on the programs. Regulation provides a framework for the minimum required information for most of the reports, while the Council has the flexibility to augment this framework with additional information requests that may be pertinent to current issues in the fishery.

This request combines voluntary, non-regulatory cooperative report elements from four collections (OMB Control Nos. 0648-0401, -0565, -0678, and -0697) with the Annual Rockfish Cooperative Report from OMB Control Number 0648-0545 which contains both required (per 50 CFR 679.5(r)) and voluntary data elements. The title of this collection is changed from "Crab Rationalization (CR) Program: CR Cooperative Annual Report" to read: "Alaska Council Cooperative Annual Reports." In addition to presentation of the report before the Council, all of the annual reports must be submitted to the Council by email or fax for the April Council meeting.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Voluntary and required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: August 8, 2016.

Sarah Brabson,

NOAA PRA Clearance Officer.
