

small, were able to express their views on this issue.

Also, the Board has a number of appointed committees to review certain issues and make recommendations to the Board. The Board's Almond Quality and Food Safety Committee met on April 5, 2016, and discussed this issue in detail. That meeting was also a public meeting, and both large and small entities were able to participate and express their views. Finally, interested persons are invited to submit comments on this interim rule, including the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/rules-regulations/moa/small-businesses>. Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

This rule invites comments on a change to the quality control requirements currently prescribed under the order. Any comments timely received will be considered prior to finalization of this rule.

After consideration of all relevant material presented, including the Board's recommendation, and other information, it is found that this interim rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) This rule relaxes the current rules and regulations; (2) this rule should be in place in time for the beginning of the crop year on August 1; (3) the Board unanimously recommended these changes at a public meeting and interested parties had an opportunity to provide input; and (4) this rule provides a 60-day comment period and any comments timely received will be considered prior to finalization of this rule.

This correction addresses an amendatory term error in that final rule. Specifically, the instructions amending appendix U to subpart B of part 430—Uniform Test Method for Measuring the Energy Consumption of Ceiling Fans, stated that appendix U is “added”.
