

President gave certain authorities to the PACHA for implementation of the National HIV/AIDS Strategy for the United States (Strategy). PACHA is currently operating under the authority given in Executive Order 13708, dated September 30, 2015.

PACHA provides advice, information, and recommendations to the Secretary regarding programs, policies, and research to promote effective treatment, prevention, and cure of HIV disease and AIDS, including considering common co-morbidities of those infected with HIV as needed, to promote effective HIV prevention and treatment and quality services to persons living with HIV disease and AIDS.

Substantial progress has been made in addressing the domestic HIV epidemic since the Strategy was released in July 2010. Under Executive Order 13703, the National HIV/AIDS Strategy for the United States: Updated to 2020 (Updated Strategy) was released. PACHA shall contribute to the federal effort to improve HIV prevention and care.

The functions of the Council are solely advisory in nature.

The Council consists of not more than 25 members. Council members are selected from prominent community leaders with particular expertise in, or knowledge of, matters concerning HIV and AIDS, public health, global health, philanthropy, marketing or business, as well as other national leaders held in high esteem from other sectors of society. Council members are appointed by the Secretary or designee, in consultation with the White House Office on National AIDS Policy. The agenda for the upcoming meeting will be posted on the *AIDS.gov* Web site at www.aids.gov/pacha.

Public attendance at the meeting is limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify Caroline Talev at Caroline.Talev@hhs.gov. Due to space constraints, pre-registration for public attendance is advisable and can be accomplished by contacting Caroline Talev at Caroline.Talev@hhs.gov by close of business on Monday, September 19, 2016. Members of the public will have the opportunity to provide comments at the meeting. Any individual who wishes to participate in the public comment session must register with Caroline Talev at Caroline.Talev@hhs.gov by close of business on Monday, September 19, 2016; registration for public comment will not be accepted by telephone. Individuals are encouraged to provide a

written statement of any public comment(s) for accurate minute taking purposes. Public comment will be limited to two minutes per speaker. Any members of the public who wish to have printed material distributed to PACHA members at the meeting are asked to submit, at a minimum, 1 copy of the material(s) to Caroline Talev, no later than close of business on Monday, September 19, 2016.

Dated: July 28, 2016.

B. Kaye Hayes,

Executive Director, Presidential Advisory Council on HIV/AIDS.

Proposed Collection, 60-Day Comment Request: Certificate of Confidentiality Electronic Application System (OD)

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the Office of Extramural Research (OER), the National Institutes of Health (NIH) will continue the use of the electronic application form for the submission of requests to the NIH for Certificates of Confidentiality (CoCs), which was launched in 2015.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Dr. Ann M. Hardy, NIH Extramural Human Research Protections Officer and Coordinator, Certificates of Confidentiality, Office of Extramural Programs, OER, NIH, 3701 Rockledge Dr., Room 3002, Bethesda, MD 20892, or call non-toll-free number (301) 435-2690, or Email your request, including your address to: hardyan@od.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the

collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

PROPOSED COLLECTION: Certificate of Confidentiality Electronic Application System 0925–0689, expiration date 01/30/2017, Office of Extramural Research (OER), National Institutes of Health (NIH).

Need and Use of Information Collection: This application system provides one electronic form to be used by all research organizations that wish to request a Certificate of Confidentiality (CoC) from the NIH. As described in the

authorizing legislation (Section 301(d) of the Public Health Service Act, 42 U.S.C. 241(d)), CoCs are issued by the agencies of Department of Health and Human Services (HHS), including the NIH, to authorize researchers conducting sensitive research to protect the privacy of human research subjects by enabling them to refuse to release names and identifying characteristics of subjects to anyone not connected with the research. At the NIH, the issuance of CoCs has been delegated to the individual NIH Institutes and Centers (ICs). To make the application process consistent across the entire agency, OER launched an electronic application system in 2015 that is used by research

organizations that wish to request a CoC from any NIH IC. Having one system for all CoC applications to the NIH is more efficient for both applicants and NIH staff who process these requests. The NIH uses the information in the application to determine eligibility for a CoC and to issue the CoC to the requesting organization. It is anticipated that the NIH ICs will issue approximately 1300 new CoCs each year for eligible research projects.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total annualized burden hours estimate is 1,951.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents	Frequency of response	Average time per response (in hours)	Total annual burden hours
CoC Applicants—Private	455	1	90/60	683
CoC Applicants—State/local	650	1	90/60	975
CoC Applicants—Small business	130	1	90/60	195
CoC Applicants—Federal	65	1	90/60	98
Total	1,300	1,300	1,951

Dated: August 8, 2016.
