SUPPLEMENTARY INFORMATION:

DOCUMENT AVAILABILITY: Copies of the draft Plan update are available at the following office during regular business hours: Gulf Coast Ecosystem Restoration Council, Hale Boggs Federal Building, 500 Poydras Street, Suite 1117, New Orleans, LA 70130. Electronic versions of the draft Plan update can be viewed and downloaded at www.RestoreTheGulf.gov.

Background and Summary: The *Deepwater Horizon* oil spill led to 2012 passage of the RESTORE Act, which directs 80 percent of associated civil and administrative Clean Water Act penalties to ecosystem restoration, economic recovery, and tourism promotion in the Gulf Coast region. To administer a portion of these funds, the RESTORE Act established the Council, comprised of principals from the five Gulf Coast States and six federal agencies. One of the Council's primary responsibilities is to develop and update a Comprehensive Plan to restore the

ecosystem and the economy of the Gulf Coast region.

The Council approved an Initial Comprehensive Plan in August 2013. Since that time, there have been important developments that warrant a Plan update; the resolution of civil claims against BP has provided clarity regarding the amount and timing of funds available to the Council. Additionally, the Council is now also in a position to develop a Ten-Year Funding Strategy, as required by the RESTORE Act. The Council has also gained valuable knowledge during the process of developing and approving (on December 9, 2015) the first set of foundational restoration activities in its Initial Funded Priorities List (FPL).

The process of developing the FPL was a tremendous success for the Council. The Council benefited greatly from public input during this process. To learn as much as it could from this first round of funding decisions, the Council also conducted a retrospective review of the FPL process and published a *Lessons Learned and Path Forward Summary Report*, which helped identify and reinforce important lessons applicable to future Council activities.

This draft Plan update does not identify specific restoration activities; that is the purpose of future FPLs and State Expenditure Plans (SEPs), described in more detail in the draft Plan update. Rather, the Plan update is intended to improve Council decisions by:

- Ensuring consistency with the Priority Criteria referenced in the Act;
- Reinforcing the Council's goals, objectives and commitments;
- Setting forth a Ten-Year Funding Strategy, including a Council vision for ecosystem restoration;
- Increasing collaboration among Council members and partner restoration programs;
- Refining the process for ensuring that the Council's decisions are informed by the best available science; and
- Improving the efficiency, effectiveness and transparency of Council actions.

Public input on the Council's previous activities has helped shape this draft Plan update. The Council is committed to continuously improving and adapting in response to new information and feedback, and looks forward to hearing the views of all stakeholders on this draft Plan update.
