Agency Information Collection Activities; Submission to OMB for Review and Approval; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: 30 day Notice.

SUMMARY: In compliance with section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, has submitted an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB) for review and approval. The ICR is for revision of the approved information collection assigned OMB control number 0990-0275, scheduled to expire on 08/31/2016. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public on this ICR during the review and approval period.

DATES: Comments on the ICR must be received on or before September 22, 2016.

ADDRESSES: Submit your comments to OIRA_submission@omb.eop.gov or via facsimile to (202) 395-5806.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, Information.CollectionClearance@hhs.gov or (202) 690-6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the OMB control number 0990-0275 and document identifier HHS-OS-0990-0275-30D—for reference.

Information Collection Request Title: Performance Data System (PDS).
OMB No.: 0990-0275.

Abstract: This request for clearance is to revise data collection activities and extend by three (3) years a currently approved collection using the OMB approved Performance Data System (PDS) (OMB No. 0990-0275), the tool used by the Office of Minority Health (OMH) to collect program management and performance data for all OMH-funded projects. The revised data collection activities pertain only to current questions about grantee use of social media. The modified social media questions in PDS will be more applicable to OMH grantees, more easily understood, and collect more accurate quantitative metrics. Grantee data collection via the UDS (original data collection system) was first approved by OMB on June 7, 2004 (OMB No. 0990-275). OMB approval was also received for modifications to the UDS (August 23, 2007), which upgraded the data

collection tool from the UDS to the PDS (August 31, 2010). A 3-year extension without change of the approved PDS collection was approved August 1, 2013. Clearance is due to expire on August 31, 2016.

Need and Proposed Use of the Information: The clearance is needed to continue data collection using the PDS, a system that enables OMH to comply with Federal reporting requirements and monitor and evaluate performance by enabling the efficient collection of performance-oriented data tied to OMH-wide performance reporting needs. The ability to monitor and evaluate performance in this manner, and to work towards continuous program improvement are basic functions that OMH must be able to accomplish in order to carry out its mandate with the most effective and appropriate use of resources. The revision of the social media questions is necessary because social media platforms, such as Facebook, Twitter, and blogs, are becoming increasingly utilized by grantees for their usability, free access, and ability to reach a larger audience. The revised questions will lead to increased data collection completeness and quality.

Likely Respondents: Respondents for this data collection include the project directors for OMH-funded projects and/or the data entry persons for each OMH-funded project. Affected public includes non-profit institutions, State, Local, or Tribal Governments.

The total annual burden hours estimated for this ICR are summarized in the table below.

Information Collection Request Title: Evaluation of the Women's Health Leadership Institute Program.

Abstract: The U.S. Department of Health and Human Services (HHS) Office on Women's Health (OWH) is requesting approval for new data collection to assess the impact of the Women's Health Leadership Institute (WHLI) program. The WHLI trained community health workers (CHWs) to gain leadership skills and to use a public health systems approach to address chronic disease and health disparities in their communities. WHLI

employed a train-the-trainers model (*i.e.*, experienced personnel coach and mentor inexperienced instructors to develop skills and knowledge needed to deliver the course), where Master Trainers (MTs) learned to deliver the WHLI training curriculum to CHWs. At the end of the program, CHWs received guidance on developing Community Action Projects (CAPs) to implement systems-level changes in their communities.

The evaluation will consist of both a process evaluation that focuses on CHWs' satisfaction with the training and suggestions for improvement, and an outcome evaluation that assesses (1) intermediate outcomes including the sustainability of CHWs' leadership knowledge and competencies, and the application of these competencies in leadership activities and CAP development.; and (2) long-term outcomes including positive systemic and/or community level changes made around women's health issues. Data from the study will enable OWH to understand what components of the training were most successful and to identify aspects of the training in need of improvement. Results will also help OWH with planning and developing future training initiatives to promote effective programs for women and girls.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
