Title: Arrival and Departure Record, Nonimmigrant Visa Waiver Arrival/Departure, and Electronic System for Travel Authorization (ESTA).

OMB Number: 1651-0111.

Form Numbers: I-94 and I-94W.

Abstract

Background

CBP Forms I-94 (Arrival/Departure Record) and I-94W (Nonimmigrant Visa Waiver Arrival/Departure Record) are used to document a traveler's admission into the United States. These forms are filled out by aliens and are used to collect information on citizenship, residency, passport, and contact information. The data elements collected on these forms enable DHS to perform its mission related to the screening of alien visitors for potential risks to national security and the determination of admissibility to the United States. ESTA applies to aliens seeking to travel to the United States under the Visa Waiver Program (VWP) and requires that VWP travelers provide information electronically to CBP before embarking on travel to the United States without a visa. Travelers who are entering the United States under the VWP in the air or sea environment and who have a travel authorization obtained through ESTA are not required to complete the paper Form I-94W.

Pursuant to an interim final rule published on March 27, 2013 in the **Federal Register** (78 FR 18457) related to Form I-94, CBP has partially automated the Form I-94 process. CBP now gathers data previously collected on the paper Form I-94 from existing automated sources in lieu of requiring passengers arriving by air or sea to submit a paper I-94 upon arrival. Passengers can access and print their

electronic I-94 via the Web site at www.cbp.gov/I94.

ESTA can be accessed at: <https://esta.cbp.dhs.gov>. Samples of CBP Forms I-94 and I-94W can be viewed at: <http://www.cbp.gov/document/forms/form-i-94-arrivaldeparture-record> and <http://www.cbp.gov/document/forms/form-i-94w-visa-waiver-arrivaldeparture-record>.

Recent Changes

On December 18, 2015, the President signed into law the Visa Waiver Program Improvement and Terrorist Travel Prevention Act of 2015 as part of the Consolidated Appropriations Act of 2016. To meet the requirements of this new Act, DHS strengthened the security of the VWP by enhancing the ESTA application and Form I-94W. In two recent emergency submissions under the Paperwork Reduction Act, additional questions were added to ESTA and to Form I-94W that request information from applicants about countries to which they have traveled on or after March 1, 2011; countries of which they are citizens/nationals; countries for which they hold passports; and Global Entry Numbers.

Proposed Changes

DHS proposes to add the following question to ESTA and to Form I-94W: "Please enter information associated with your online presence—Provider/Platform—Social media identifier." It will be an optional data field to request social media identifiers to be used by highly trained CBP personnel for vetting purposes, and applicant contact information. Collecting social media identifiers will enhance the existing vetting process and provide DHS greater clarity and visibility to possible nefarious activity and connections by providing an additional selector which analysts and investigators may use to better assess ESTA applications. Social media information may be used to validate information provided in the ESTA application, such as countries visited, purpose of travel, etc. If an applicant chooses not to fill out or answer questions regarding social media, the ESTA application can still be successfully submitted. If an applicant chooses to answer this question, DHS will have visibility of the publicly available information on those platforms, consistent with the privacy settings the applicant has set on the platforms.

Current Actions: This submission is being made to extend the expiration date with a change to the information collected as a result of adding a question about social media to ESTA and to Form

I-94W, as described in the Abstract section of this document. There are no changes to the burden hours or to the information collected on Form I-94, or the I-94 Web site.
