

Health and Human Services.” Through this NOFA, HUD is holding a competition in order to identify those 10 communities that will make best use of the congressionally appropriated funds and provide HUD with the best opportunity to meet the YHDP objectives. Without asking for this information, HUD will be unable to meet the congressional mandate within the Act.

Once communities have been selected, HUD must collect individual grant applications to meet the Act requirement that YHDP projects be renewable under the Continuum of Care (CoC) Program authorized by the McKinney-Vento Act, as amended by S. 896 The Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009 (42 U.S.C. 11371 *et seq.*) and the CoC Program Homeless Assistance Grant Application requirements (OMB 2506–0112).

Finally, HUD must collect the Coordinated Community Plan to meet the appropriations requirement “to demonstrate how a comprehensive approach to serving homeless youth . . . can dramatically reduce youth homelessness.” In HUD’s experience leading similar coordinated community efforts (e.g. LGBTQ Youth Homelessness Prevention Pilot, OMB 2506–0204), the planning process is a challenging and resource intensive endeavor, requiring systems analysis, values sharing, priority negotiating, the creation of leadership structure, the development of a logic model, and a plan for constant feedback and continuous process improvement, among other things. The submission of a coordinated community plan will allow HUD to assess the ability of the selected communities to appropriately use the funding made available by Congress.

Respondents (i.e. affected public): CoC collaborative applicants, which can be States, local governments, private nonprofit organizations, public housing authorities, and community mental health associations that are public nonprofit organizations.

Estimated Number of Respondents: 200 applicants 10 communities (project applications and plans).

Estimated Number of Responses: 200 community selection applications, 50

project applications, 10 community plans.

Frequency of Response: 1 community selection application per applicant, project applications per selected community, 1 community plan per selected community.

Average Hours per Response: 25 hours, 10 hours, 240.17 hours.

Total Estimated Burdens: 5,000 + 500 + 2,401.7 = 7,901.7 hours.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Endangered Species; Issuance of Recovery Permits

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance of recovery permits.

SUMMARY: We, the U.S. Fish and Wildlife Service, have issued the following permits to conduct activities with endangered and threatened species under the authority of the Endangered Species Act (Act), as amended. With some exceptions, the Act prohibits activities involving listed species unless a Federal permit is issued that allows such activity. We provide this list for the convenience of the public as a summary of our permit issuances for the first half of calendar year 2016.

FOR FURTHER INFORMATION CONTACT: See the contact information in the Permits Issued section.

SUPPLEMENTARY INFORMATION: We have issued the following permits to conduct activities with endangered and threatened species in response to recovery permit applications that we received under the authority of section 10(a)(1)(A) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*). These permits were issued between January 1, 2016, and June 30, 2016. Each permit was issued only after we determined that it was applied for in good faith, that granting the permit would not be to the disadvantage of the listed species, that the proposed activities were for scientific research or would benefit the recovery or the enhancement of survival of the species, and that the terms and conditions of the permits were consistent with the purposes and policy set forth in the Act.
