

analyses; (4) develop and publish aggregate public reports and other data produces; and (5) protect the confidentiality of notices and reports in accordance with BTS' own statute (49 U.S.C. 6307) and CIPSEA. In accordance with these confidentiality statutes, only statistical (aggregated) and non-identifying data will be made publicly available by BTS through its reports. BTS will not release to BSEE or any other public or private entity any information that might reveal the identity of individuals or organizations mentioned in failure notices or reports without explicit consent of the respondent and any other affected entities.

Respondents who report a barrier-related failure will be asked to fill out a form based upon the requirements of 30 CFR 250.730(c) and cited industry standards. They will also be asked to submit supplemental information and analysis as described in 30 CFR 250.730(c) or 30 CFR 250.803 and cited industry standards. Respondents will have the option to mail or submit the reports electronically to BTS. Respondents will be asked to provide information such as: (1) Name and contact information; (2) time and location of the failure event; (3) a short description of the failure event and operating conditions that existed at the time of the event; (4) contributing factors to the event; (5) results of an investigation or safety analysis report; (6) any design or procedural changes as a result of the reported equipment failure; and (7) any other information that might be useful in determining ways to prevent such failures from occurring.

BTS requests emergency processing of this information collection because the use of normal clearance procedures is likely to result in the collection of only limited data on barrier failure events during the established PRA time periods. The use of normal clearance procedures will prevent collection of this data during the established PRA time periods, which will inhibit BSEE's ability to comprehensively assess barrier failures and risks, identify barrier failure trends, and identify causes of critical safety barrier failure events.

The BSEE Well Control Rule failure data collection for BOP equipment was substantially driven by an event of major national significance, which also captured international attention. One important element of this event was the failure of BOP equipment. The event resulted in the deaths of 11 people and the largest oil spill in US history. It is in the public interest to commence immediate collection of the additional

information on equipment history and important event data to enable a better understanding of underlying root causes.

III. Request for Public Comment

BTS requests comments on any aspects of this information collection request, including: (1) Ways to enhance the quality, usefulness, and clarity of the collected information; and (2) ways to minimize the collection burden without reducing the quality of the information collected, including additional use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title: Estate and Gift Taxes; Qualified Disclaimers of Property.

OMB Number: 1545-0959.

Regulation Project Number: TD 8095.

Abstract: Internal Revenue Code section 2518 allows a person to disclaim an interest in property received by gift or inheritance. The interest is treated as if the disclaimant never received or transferred such interest for Federal gift tax purposes. A qualified disclaimer must be in writing and delivered to the transferor or trustee.

Current Actions: There is no change to this existing regulation.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 2,000.

Estimated Time per Respondent: 30 minutes.

Estimated Total Annual Burden Hours: 1,000.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: August 23, 2016.
