

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated October 15, 2015, the licensee requested that the NRC amend the COLs for VEGP, Units 3 and 4, COLs NPF-91 and NPF-92. The proposed amendment is described in Section I of this **Federal Register** notice.

The Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or COL, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on October 27, 2015 (80 FR 65807). No comments were received during the 30-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that the licensee requested on October 15, 2015. The exemption and amendment were issued on April 12, 2016 as part of a combined package to the licensee (ADAMS Accession No. ML16103A382).

It appears to the Securities and Exchange Commission that the public interest and the protection of investors require a suspension of trading in the securities of Preston Corp. Preston Corp. is a Nevada corporation whose principal place of business is located in Austin, Texas.
