

WI, reducing existing segment extending from the 6.8-mile radius to 11.4 miles southwest, and adding segments extending from the 6.8-mile radius to 7 miles northeast and 10 miles northwest of the airport.

Airspace reconfiguration is necessary due to the decommissioning of NDBs, cancellation of NDB approaches, and implementation of RNAV procedures at these airports, and for the safety and management of the standard instrument approach procedures for IFR operations.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

RIN 1513–AC27

Proposed Revisions to Wine Labeling and Recordkeeping Requirements; Comment Period Reopening

AGENCY: Alcohol and Tobacco Tax and Trade Bureau, Treasury.

ACTION: Notice of proposed rulemaking; reopening of comment period.

SUMMARY: The Alcohol and Tobacco Tax and Trade Bureau (TTB) is reopening

the comment period for Notice No. 160, Proposed Revisions to Wine Labeling and Recordkeeping Requirements, a notice of proposed rulemaking published in the **Federal Register** on June 22, 2016. In Notice No. 160, TTB proposed to amend its labeling and recordkeeping regulations in 27 CFR part 24 to provide that any standard grape wine containing 7 percent or more alcohol by volume that is covered by a certificate of exemption from label approval may be labeled with a varietal (grape type) designation, a type designation of varietal significance, a vintage date, or an appellation of origin only if the wine is labeled in compliance with the standards set forth in the appropriate sections of 27 CFR part 4 for that label information. TTB also proposed to amend its part 4 wine labeling regulations to include a reference to the new part 24 requirement. TTB is reopening the comment period in response to requests from two wine industry trade associations. In addition, this reopening of the comment period solicits comments from the public on issues that were raised in comments received in response to Notice No. 160.

DATES: The comment period for the proposed rule published on June 22, 2016 (81 FR 40584) is reopened. Written comments on Notice No. 160 are now due on or before December 7, 2016.

SUPPLEMENTARY INFORMATION: In Notice No. 160 (81 FR 40584, June 22, 2016), the Alcohol and Tobacco Tax and Trade Bureau (TTB) proposed to amend its labeling and recordkeeping regulations in 27 CFR part 24 to provide that any standard grape wine containing 7 percent or more alcohol by volume that is covered by a certificate of exemption from label approval may be labeled with a varietal (grape type) designation, a type designation of varietal significance, a vintage date, or an appellation of origin only if the wine is labeled in compliance with the standards set forth in the appropriate sections of 27 CFR part 4 for that label information. TTB is also proposing to amend its part 4 wine labeling regulations to include a reference to the new part 24 requirement. The 60-day comment period for Notice No. 160 originally closed on August 22, 2016.

TTB has received two requests from California-based wine industry trade associations to extend the public comment period an additional 90 days. The first, dated August 2, 2016, was submitted by Wine Institute; the second, dated August 19, 2016, was submitted by the California Association of Winegrape Growers. Both associations state that additional time is needed to assess the proposal's effects on their membership, noting that their members are currently preoccupied with the grape harvest. The letters are posted as Comment 7 and Comment 41 within Docket No. TTB-2016-0005 at www.regulations.gov.

Determination To Re-Open the Public Comment Period

In response to the requests from Wine Institute and the California Association of Winegrape Growers to extend the comment period, TTB is reopening the comment period for Notice No. 160 for an additional 90 days. We believe this additional time is necessary for industry members and the public to fully consider the proposals outlined in Notice 160. Therefore, comments on Notice No. 160 are now due on or before December 7, 2016.

Based on comments TTB has received to date on Notice No. 160, TTB is

especially interested in comments regarding whether any geographic reference to the source of the grapes used in the wine could be included on a wine label in a way that would not be misleading with regard to the source of the wine. In light of the reopening of the comment period, TTB is asking that commenters consider this issue when commenting on Notice No. 160. Please provide any available specific information in support of your comments.
