### 34 CFR Chapter I

**RIN 1875-AA11**

**[Docket ID ED-2016-OS-0002]**

#### Secretary's Final Supplemental Priority for Discretionary Grant Programs

**AGENCY:** Department of Education.

**ACTION:** Final priority.

**SUMMARY:** To further support a comprehensive education agenda and to address concentrated poverty and related segregation in our Nation's schools, the Secretary of Education establishes an additional priority primarily for use in any discretionary grant program focused on elementary and secondary education, as appropriate, for fiscal year (FY) 2016 and future years. The Secretary adds this priority to the existing supplemental priorities and definitions for discretionary grant programs that were published in the **Federal Register** on December 10, 2014 (2014 Supplemental Priorities). This priority reflects our efforts to address emerging needs in education.

**DATES:** This supplemental priority is effective October 14, 2016.

**FOR FURTHER INFORMATION CONTACT:** Ramin Taheri, U.S. Department of Education, 400 Maryland Avenue SW., Room 5E343, Washington, DC 20202-5930. Telephone: (202) 453-5961 or by email: [ramin.taheri@ed.gov](mailto:ramin.taheri@ed.gov).

#### SUPPLEMENTARY INFORMATION:

**Program Authority:** 20 U.S.C. 1221e-3, 3474.

We published a notice of proposed priority (NPP) in the **Federal Register** on June 8, 2016 (81 FR 36833). That document contained background information and our reasons for proposing the additional priority.

**Public Comment:** In response to our invitation in the NPP, 13 parties submitted comments on the proposed priority.

**Analysis of Comments and Changes:** An analysis of the comments follows.

We group our discussion according to the general issues raised. We do not address technical and other minor changes.

**Comment:** Several commenters expressed concern that the proposed priority would adversely affect rural communities and students who reside within them, where the geographic isolation of students from one particular racial, ethnic, or socioeconomic group would render efforts to diversify schools difficult or impossible. Many of these commenters expressed support for the priority and the importance of addressing the growing segregation and inequality in our Nation's schools, but suggested that the Department use the priority as an invitational priority, as opposed to a competitive preference or absolute priority, to ensure that rural applicants are not unfairly disadvantaged in grant competitions.

**Discussion:** We appreciate the commenters' concern that the priority may not be appropriate or beneficial for rural communities whose geographical constraints make increasing socioeconomic diversity infeasible. First, we note that increasing educational equity for rural students and communities is a focus area for the Department of Education (the Department); for example, *Priority 4—Supporting High-Need Students* from the 2014 Supplemental Priorities includes language that allows the Department to prioritize projects designed to improve outcomes for students served by rural local educational agencies (LEAs).

Second, we acknowledge that solutions to educational challenges are often different in rural, urban, and suburban communities. We note, however, that the Department has discretion in how and when it will use this priority (including whether to use it as an invitational or other type of priority), and does not intend to use this priority in a way that would disadvantage rural applicants. Rather, it is our intention to use this priority strategically to encourage diversity only in those situations where we believe such efforts are most appropriate and best support the possibility of increasing socioeconomic diversity in schools.

**Changes:** None.

**Comment:** In addition to concerns related to geographically isolated, rural communities, many commenters raised questions regarding the utility of the priority in Indian country. Specifically, these commenters expressed concerns about how the priority would affect American Indian or Alaska Native students who attend schools in rural areas, on tribal lands that are
