The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

- 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

- 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

The Boeing Company: Docket No. FAA–2016–9075; Directorate Identifier 2016–NM–082–AD.

(a) Comments Due Date

We must receive comments by October 31, 2016.

(b) Affected ADs

None.

(c) Applicability

This AD applies to The Boeing Company Model 787–8 and 787–9 airplanes, certificated in any category, as identified in Boeing Alert Service Bulletin B787–81205–SB570029–00, Issue 001, dated February 23, 2016.

(d) Subject

Air Transport Association (ATA) of America Code 57; Wings.

(e) Unsafe Condition

This AD was prompted by a report indicating that a portion of the sealant above the engine pylon between the wing skin and the vapor barrier may have been omitted. We are issuing this AD to detect and correct missing sealant above the engine pylon between the wing skin and the vapor barrier, which can create an unintended leak path for fuel, potentially draining onto the aft fairing heat shield and onto hot engine parts or brakes, which could lead to a major ground fire.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Inspection and Corrective Actions

Within 60 months after the effective date of this AD: Do a general visual inspection for missing sealant in the seam on the outside and inside of the engine struts; and do all applicable corrective actions; in accordance with the Accomplishment Instructions of Boeing Alert Service Bulletin B787–81205–SB570029–00, Issue 001, dated February 23, 2016. Do all applicable corrective actions before further flight.

(h) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Seattle Aircraft Certification Office (ACO), FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the ACO, send it to the attention of the person identified in paragraph (i)(1) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by the Boeing Commercial Airplanes Organization Designation Authorization (ODA) that has been authorized by the Manager, Seattle ACO, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(4) For service information that contains steps that are labeled as Required for Compliance (RC), the provisions of paragraphs (h)(4)(i) and (h)(4)(ii) of this AD apply.

(i) The steps labeled as RC, including substeps under an RC step and any figures identified in an RC step, must be done to comply with the AD. If a step or sub-step is labeled “RC Exempt,” then the RC requirement is removed from that step or sub-step. An AMOC is required for any deviations to RC steps, including substeps and identified figures.

(ii) Steps not labeled as RC may be deviated from using accepted methods in accordance with the operator’s maintenance or inspection program without obtaining approval of an AMOC, provided the RC steps, including substeps and identified figures, can still be done as specified, and the airplane can be put back in an airworthy condition.

SUPPLEMENTARY INFORMATION:**I. Background**

The Fair and Accurate Credit Transactions Act (“FACTA” or “Act”)

was enacted in 2003. In part, the Act amends the Fair Credit Reporting Act (“FCRA”) by imposing a requirement that any person that maintains or otherwise possesses consumer information, or any compilation of consumer information, derived from consumer reports for a business purpose, properly dispose of any such information or compilation.¹ The Act also required the Commission and other federal agencies to promulgate rules regarding this requirement.² Further, the Act directed the Commission and other federal agencies to ensure that the rules were consistent with the requirements of the Gramm-Leach-Bliley Act (“GLBA”).³

Pursuant to the Act’s directive, the Commission promulgated the Disposal Rule in 2004. The Disposal Rule provides that, unless otherwise stated, terms used in the Rule have the same meaning as set forth in the FCRA.⁴ The Rule defines “consumer information” as any record about an individual, whether in paper, electronic, or other form, that is a consumer report or is derived from a consumer report. Consumer information also means a compilation of such records. Consumer information does not include information that does not identify individuals, such as aggregate information or blind data.⁵ In addition, “dispose,” “disposing,” or “disposal” is defined as (1) The discarding or abandonment of consumer information, or (2) The sale, donation, or transfer of any medium, including computer equipment, upon which consumer information is stored.⁶

The Disposal Rule requires that persons over which the FTC has jurisdiction who maintain or otherwise possess consumer information for a business purpose properly dispose of such information by taking reasonable measures to protect against unauthorized access to or use of the information in connection with its disposal.⁷ It also includes several examples of what the Commission

believes constitute reasonable measures to protect consumer information in connection with its disposal.⁸ These examples are intended to provide covered entities with guidance on how to comply with the Rule but are not intended to be safe harbors or exclusive methods for compliance.⁹ The Rule uses a flexible “reasonable measures” standard. The FTC realizes that there are few foolproof methods of record destruction and that entities covered by the Rule must consider their own unique circumstances when determining how to comply with the Rule.

The Disposal Rule became effective on June 1, 2005.

II. Regulatory Review of the Disposal Rule

The Commission periodically reviews all of its rules and guides. These reviews seek information about the costs and benefits of the agency’s rules and guides, and their regulatory and economic impact. The information obtained assists the Commission in identifying those rules and guides that warrant modification or rescission. Therefore, the Commission solicits comments on, among other things, the economic impact and benefits of the Rule; possible conflict between the Rule and state, local, or other federal laws or regulations; and the effect on the Rule of any technological, economic, or other industry changes.

III. Issues for Comment

The Commission requests written comment on any or all of the following questions. These questions are designed to assist the public and should not be construed as a limitation on the issues about which public comments may be submitted. The Commission requests that responses to its questions be as specific as possible, including a reference to the question being answered, and refer to empirical data or other evidence upon which the comment is based whenever available and appropriate.
