

automatic personalization of needed assistive technology.

Program Authority: The Consolidated Appropriations Act, 2014 (Pub. L. 113–76).

Applicable Regulations: (a) The Education Department General Administrative Regulations in 34 CFR parts 75, 77, 79, 81, 82, 84, 86, and 99. (b) The OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement) in 2 CFR part 180, as adopted and amended as regulations of the Department in 2 CFR part 3485. (c) The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, as adopted and amended as regulations of the Department in 2 CFR part 3474. (d) The priorities and requirements in the notice inviting applications for this program, published July 23, 2015, in the **Federal Register** (80 FR 43763).

Eligible Entities for Subgrants: A State or public or non-profit agency or organization, including Indian tribes and institutions of higher education.

Discussion: Recognizing that the APC project will need to involve coordination among several different sectors, including cloud or other technology platform providers, assistive technology researchers and manufacturers, and disability advocacy organizations, the Department has required that the grantee set up a partnership involving highly experienced public and private entities. The subgranting authority will allow the grantee to tap unique talent sources with the technical expertise to carry out the activities of the project. Examples of proposed activities to be carried out by these subgrantees could include but are not limited to: Development of accessibility infrastructure for auto-personalization; pilot test coordination (America's Job Centers, employers, and educational institutions); and metrics development, collection, and analysis. Pursuant to 34 CFR 75.708(b)(2), the grantee may make subgrants to eligible entities that have already been identified in its approved application or to other eligible entities that are selected through a competitive process set out in subgranting procedures established by the grantee.

Requirements: If the grantee uses this subgranting authority, the subgrants must be used to directly carry out project activities described in the grantee's application. The grantee must ensure that the subgrants are awarded on the basis of an approved budget that is consistent with the grantee's approved application and all applicable Federal statutory, regulatory, and other

requirements. The grantee must also ensure that every subgrant includes any conditions required by Federal statutes and Executive orders and their implementing regulations. Finally, the grantee must ensure that subgrantees are aware of requirements imposed by Federal statutes and regulations, including the Federal anti-discrimination laws enforced by the Department, which are set out at 34 CFR 75.500.

Note: This notice does not solicit applications. The Disability Innovation Fund—Automatic Personalization Computing Project (CFDA number 84.421A) has been awarded to the Board of Regents of the University of Wisconsin System.
