

(construction) and long-term (operation and use) effects on soil stability and erosion prevention.

Water Quality—As with the potential soil impacts described above, road construction and use could alter runoff patterns for stormwater and snowmelt in such a way as to potentially effect water quality of nearby creeks and streams through sedimentation and turbidity or the introduction of foreign chemicals.

Outdoor Recreation/Public Access—NFSR 774 is a popular route with the public for accessing the Red and White Mountain area. This route is a point of entry for a multitude of recreational activities, including hiking, mountain biking, wildlife viewing, OHV riding, hunting, and snowmobile riding. NFSR's 778, 780 and 783 provide public access into the areas completely surrounding Berlaimont's private land. Use of any of these routes by Berlaimont residents and guests could increase user conflicts with WRNF visitors. Physical improvements to the roadway could be beneficial to some types of recreational activities, while simultaneously having a detrimental effect on others.

Grazing—The NFS lands surrounding the subject property are currently used as an active grazing allotment for up to 2,900 sheep.

Permits or Licenses Required

This Proposed Action considers the issuance of a road easement from the Forest Service to Berlaimont under the authority of the Federal Land Policy and Management Act of 1976 (FLPMA).

Scoping Process

This Notice of Intent initiates the scoping process, which guides the development of the Environmental Impact Statement (EIS). The Forest Service is soliciting comments from Federal, State and local agencies and other individuals or organizations that may be interested in or affected by implementation of the proposed project. Public questions and comments regarding this proposal are an integral part of this environmental analysis process. Input provided by interested and/or affected individuals, organizations and governmental agencies will be used to identify alternative actions and resource issues that will be analyzed in the EIS. The Forest Service will identify significant issues raised during the scoping process, and use them to formulate alternatives, prescribe mitigation measures and project design features, or analyze environmental effects.

A public open house meeting was held on Wednesday, September 7th,

2016 in Edwards, CO to inform the public and help to shape this proposal.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however those comments will not provide the commenter with standing to appeal the subsequent decision.

There will be an additional opportunity to comment when the Notice of Availability of the Draft EIS is published in the **Federal Register**. It is anticipated that another public meeting will be held at that time to discuss the Draft EIS. For objection eligibility, each individual or representative from each entity submitting written comments must either sign the comment or verify identity upon request. Individuals and organizations wishing to be eligible to object must meet the information requirements in 36 CFR 218.25(a)(3).

Dated: September 19, 2016.

Scott Fitzwilliams,
Forest Supervisor.

Foreign-Trade Zones Board

[B-41-2016]

Foreign-Trade Zone (FTZ) 249— Pensacola, Florida; Authorization of Production Activity; GE Renewables North America, LLC (Wind Turbine Nacelles and Hubs); Pensacola, Florida

On May 23, 2016, GE Renewables North America, LLC submitted a notification of proposed production activity to the Foreign-Trade Zones (FTZ) Board for its facility within Subzone 249A, in Pensacola, Florida.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (81 FR 39626-39627, June 17, 2016). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the Board's regulations, including Section 400.14.

Foreign-Trade Zones Board

[B-63-2016]

Foreign-Trade Zone (FTZ) 177— Evansville, Indiana; Notification of Proposed Production Activity; Best Chairs, Inc. d/b/a Best Home Furnishings (Upholstered Furniture); Ferdinand, Cannelton and Paoli, Indiana

Best Chairs, Inc. d/b/a Best Home Furnishings (Best Home) submitted a notification of proposed production activity to the FTZ Board for its facilities in Ferdinand, Cannelton and Paoli, Indiana within FTZ 177. The notification conforming to the

requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 14, 2016.

The Best Home facilities are located within Sites 5, 6, and 7 of FTZ 177 and currently have authority to conduct cut-and-sew activity using certain foreign micro-denier suede upholstery fabrics and polyurethane fabrics to produce upholstered furniture and related parts (upholstery cover sets) on a restricted basis (Board Order 1807 and Doc. B-35-2014). Board Order 1807 authorized the production of upholstered furniture (sofas, sectionals, loveseats, chairs, and recliners) for a five-year period, with a scope of authority that only provides FTZ savings on a limited quantity (2.28 million square yards per year) of foreign origin, micro-denier suede upholstery fabric finished with a hot caustic soda solution process. Doc. B-35-2014 expanded the company's scope of authority to include certain polyurethane fabrics. All foreign upholstery fabrics other than micro-denier suede finished with a hot caustic soda solution process, polyurethane fabrics backed with ground leather, and wet coagulation process, 100 percent polyurethane coated fabrics used in Best Home's production within FTZ 177 are subject to full customs duties.

The current request seeks to extend Best Home's existing FTZ authority indefinitely (with no increase in the company's annual quantitative limit of 2.28 million square yards) and to add foreign-status leather and non-textile foreign-status components to the scope of authority. This request also seeks to clarify certain HTSUS numbers that apply to the company's existing authority for micro-denier suede upholstery fabric finished with a hot caustic soda solution process. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Best Home from customs duty payments on the foreign-status components used in export production. On its domestic sales, Best Home would be able to apply the finished upholstery cover set (*i.e.*, furniture part) or finished furniture duty rate (free) for the authorized fabrics and additional components (indicated below). Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components sourced from abroad include: Micro-denier suede fabric

finished with a hot caustic soda finishing process; upholstery leather; linear actuators and motors; transformers; power adaptors; handset controllers; power cables; and, Y-cables (duty rate ranges from 1.6% to 17.2%). The request indicates that upholstery leather will be admitted to the zone in privileged foreign status (19 CFR 146.41), thereby precluding inverted tariff benefits on upholstery leather. All other foreign, unauthorized upholstery fabrics or other components used in the production activity would continue to be admitted to the zone in domestic (duty paid) status.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 2, 2016.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482-0473.

Dated: September 19, 2016.

Executive Secretary.
