

32519—Other Basic Organic Chemical Manufacturing; and 9641—Regulation of Agricultural Marketing and Commodities.

Estimated total number of potential respondents: 1,471.

Frequency of response: Annually and on occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: Ranges from 1,681 to 6,840 hours depending on the program.

Estimated total annual costs for both programs: \$631,791.

III. Are there changes in the estimates from the last approval?

For the Pesticide Registration Maintenance Fee program there is decrease of 312 hours (from 1993 to 1681) hours in the total annual estimated respondent burden compared with that identified in the ICR currently approved by OMB. The reason for the decrease was a reduction in the number responses from 1,744 to 1,471. The total estimated annual respondent burden for the pesticide registration service fee waivers information collection has increased from 5,914 hours in the existing ICR to 6,840 hours for this renewal, due to the increase of respondent's usage of the newer waiver provisions allowed under PRIA. These changes are adjustments.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
