AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the 100-day initial determination ("ID") of the presiding administrative law judge ("ALJ") finding the asserted claims of U.S. Patent No. 6,928,433 invalid under 35 U.S.C. 101. The investigation is terminated.

The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted Investigation No. 337-TA-994 on May 11, 2016, based on a complaint filed by Creative Technology Ltd. of Singapore and Creative Labs, Inc. of Milpitas, California (collectively, "Creative"). See 81 FR 29307 (May 11, 2016). The complaint alleges violations of section 337 of the Tariff Act of 1930, as

amended (19 U.S.C. 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain portable electronic devices and components thereof by reason of infringement of certain claims of U.S. Patent No. 6,928,433 ("the '433 patent"). The notice of investigation named the following respondents: ZTE Corporation of Guangdong, China; ZTE (USA) Inc. of Richardson, Texas; Sony Corporation of Tokyo, Japan; Sony Mobile Communications, Inc. of Tokyo, Japan; Sony Mobile Communications AB of Lund, Sweden; Sony Mobile Communications (USA), Inc. of Atlanta, Georgia; Samsung Electronics Co., Ltd. of Seoul, Republic of Korea; Samsung Electronics America, Inc. of Ridgefield Park, New Jersey; LG Electronics, Inc. of Seoul, Republic of Korea; LG Electronics U.S.A., Inc. of Englewood Cliffs, New Jersey; LG Electronics Mobilecomm U.S.A., Inc. of San Diego, California; Lenovo Group Ltd. of Beijing, China; Lenovo (United States) Inc. of Morrisville, North Carolina; Motorola Mobility LLC of Chicago, Illinois; HTC Corporation of Taoyuan, Taiwan; HTC America, Inc. of Bellevue, Washington; Blackberry Ltd. of Waterloo, Ontario, Canada; and Blackberry Corporation of Irving, Texas (collectively, "Respondents"). In addition, on May 19, 2016, the ALJ issued an initial determination granting Google Inc.'s ("Intervenor") motion to intervene as a party in the investigation. See Order No. 5, *unreviewed*, Comm'n Notice (U.S.I.T.C. June 21, 2016). The Office of Unfair Import Investigations (OUII) is also a party to the investigation.

The notice of investigation also directed the ALJ to "hold an early evidentiary hearing, find facts, and issue an early decision, as to whether the asserted claims of the '433 patent recite patent-eligible subject matter under 35 U.S.C. 101" (*i.e.*, the 100-day pilot program). See 81 FR 29307 (May 11, 2016).

Accordingly, the ALJ conducted an evidentiary hearing on July 6-7, 2016, and on August 19, 2016, within 100 days of institution, the ALJ issued his ID finding that the asserted claims are directed to ineligible subject matter (*i.e.*, invalid) under 35 U.S.C. 101. In addition, although the ID noted that construction of the disputed term "portable media player" was not necessary to decide patent-eligibility under 35 U.S.C. 101, the ALJ construed the term to mean "portable media playback device, as distinguished from a general-purpose device such as a handheld computer or a personal digital assistant."

On August 29, 2016, Creative filed a petition for review and on September 1, 2016, Respondents, Intervenor, and OUII filed replies in opposition to Creative's petition.

The Commission has determined not to review the ID. The investigation is terminated.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: September 21, 2016.

Lisa R. Barton,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION:

I. Background

At the request of the Ranking Member of the House Committee on the Judiciary, the Copyright Office is conducting a study to assess the operation of section 1201 of title 17. In December 2015, the Office issued a Notice of Inquiry identifying several aspects of the statutory and regulatory framework that the Office believes are ripe for review, and inviting public comment on those and any other pertinent issues.¹ The Notice provided for two rounds of written comments. In response, the Office received sixty-eight initial comments and sixteen reply comments.² The Office then announced public roundtables on the topics addressed in the Notice and comments.³ These sessions, held in Washington, DC and San Francisco, California in May 2016, involved participation by more than thirty panelists, representing a wide range of interests and perspectives. Transcripts of the roundtables are available at <http://copyright.gov/policy/1201/>, and video recordings will be available at that location at a later date.

In the written comments and during the roundtables, parties expressed a variety of views regarding whether legislative amendments to section 1201 may be warranted. Among other suggested changes, commenters discussed proposals to update the statute's permanent exemption framework and to amend the anti-trafficking provisions to permit third-party assistance with lawful circumvention activities. At this time, as explained below, the Office is interested in receiving additional stakeholder input on particular aspects of those proposals. In addition, parties submitted numerous and varied views regarding the triennial rulemaking process under section 1201(a)(1)(C); while the Office continues to thoroughly evaluate these comments in conducting its study, this

second Notice of Inquiry does not specifically address those issues.

A party choosing to respond to this Notice of Inquiry need not address every topic below, but the Office requests that responding parties clearly identify and separately address those subjects for which a response is submitted. Parties also are invited to address any other pertinent issues that the Office should consider in conducting its study.

II. Subjects of Inquiry

1. Proposals for New Permanent Exemptions

a. *Assistive Technologies for Use by Persons Who Are Blind, Visually Impaired, or Print Disabled.* The written comments and roundtable discussions revealed widespread support for adoption of a permanent exemption to facilitate access to works in electronic formats by persons who are blind, visually impaired, or print disabled. The Office invites comment regarding specific provisions that commenters believe should be included in legislation proposing such an exemption. For example, the exemption for this purpose granted in the 2015 rulemaking permits circumvention of access controls applied to literary works distributed electronically, where the access controls "either prevent the enabling of read-aloud functionality or interfere with screen readers or other applications or assistive technologies."⁴ The exemption applies in the following circumstances:

(i) When a copy of such a work is lawfully obtained by a blind or other person with a disability, as such a person is defined in 17 U.S.C. 121; provided, however, that the rights owner is remunerated, as appropriate, for the price of the mainstream copy of the work as made available to the general public through customary channels, or

(ii) When such work is a nondramatic literary work, lawfully obtained and used by an authorized entity pursuant to 17 U.S.C. 121.⁵

The Office is interested in commenters' views on whether this language would be appropriate for adoption as a permanent exemption, or whether there are specific changes or additional provisions that Congress may wish to consider.

b. *Device Unlocking.* Some commenters advocated the adoption of a permanent exemption to permit circumvention of access controls on wireless devices for purposes of
