SUPPLEMENTARY INFORMATION:

Availability

An electronic copy of the AAC's application may be obtained online at: *www.nmfs.noaa.gov/pr/permits/incidental/research.htm*. In case of problems accessing the document, please call the contact listed above.

Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing), if certain findings are made and regulations are issued.

Incidental taking shall be allowed if NMFS finds that the taking will have a negligible impact on the species or stock(s) affected and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses, and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such taking are set forth. NMFS has defined "negligible impact" in 50 CFR

216.103 as “. . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.”

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

Summary of Request

On September 14, 2016, NMFS received an adequate and complete application from the AAC requesting authorization for the take of marine mammals incidental to space vehicle and missile launch activities from the Pacific Spaceport Complex Alaska (PSCA) for a period of five years. Space vehicle and missile launch activities have the potential to result in take of pinnipeds on nearby haul outs. Therefore, AAC requests authorization to take marine mammals that may occur in these areas, including Steller sea lions (*Eumatopias jubatus*) and harbor seals (*Phoca vitulina richardii*).

Specified Activities

AAC is proposing to launch small to medium space launch vehicles from the PSCA. PSCA may also launch a number of smaller missile systems, such as tactical or target vehicles. AAC anticipates the ability to accommodate nine launches per year.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning AAC's request (see **ADDRESSES**). Comments should be supported by data or literature citations as appropriate. We will consider all relevant information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by AAC, if appropriate.

Dated: September 20, 2016.

Abstract: Title II of the Workforce Innovation and Opportunity Act of 2014 (WIOA—Pub. L. 113-128), entitled the Adult Education and Family Literacy Act (AEFLA), was enacted on July 22, 2014. AEFLA creates a partnership among the Federal government, States, and localities to provide, on a voluntary basis, adult education and literacy services. Section 116 of WIOA requires States and Local Areas that operate the six core programs of the workforce development system to comply with common performance accountability requirements for those programs. In addition to the WIOA Joint Performance ICR, ED's Office of Career, Technical, and Adult Education (OCTAE) has modified its previously-approved ICR, used by States for performance reporting under the Workforce Investment Act of 1998 (WIA) through the National Reporting System for Adult Education (NRS ICR), to conform to the new requirements under WIOA. The NRS ICR obtains aggregate data annually from States using a set of data tables developed by ED (OMB Control No. 1830-0027).

Through this proposal, the Department is submitting a revised NRS ICR to include additional data collection elements consistent with the WIOA performance accountability requirements for the AEFLA program. These new requirements will become effective July 1, 2017. Thus, for purposes of the AEFLA program, States will be required to complete and submit annually to OCTAE the WIOA Annual Statewide Performance Report Template
