**Approval of California Air Plan Revisions, Sacramento Metropolitan Air Quality Management District and San Diego County Air Pollution Control District**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve revisions to the Sacramento Metropolitan Air Quality Management District (SMAQMD) and the San Diego County Air Pollution Control District (SDCAPCD) portions of the California State Implementation Plan (SIP). **SUPPLEMENTARY INFORMATION:**

Throughout this document, "we," "us" and "our" refer to the EPA. In the Rules and Regulations section of this **Federal Register**, we are approving these local rules and rule rescission in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

**Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To List the Western Glacier Stonefly as an Endangered or Threatened Species; Proposed Threatened Species Status for Meltwater Lednian Stonefly and Western Glacier Stonefly**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Proposed rule; 12-month petition finding and status review.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce a 12-month finding for the western glacier stonefly (*Zapada glacier*). After a review of the best available scientific and commercial information, we find that listing the western glacier stonefly is warranted. We are also announcing the proposed listing rule for the candidate species meltwater lednian stonefly (*Lednia tumana*). Therefore, we are proposing to list both the meltwater lednian stonefly and the western glacier stonefly, two insect species from Glacier National Park and northwestern Montana, as threatened species under the Endangered Species Act (Act). If we finalize this rule as proposed, it would extend the Act's protections to these species. The effect of this regulation will be to add these species to the Federal List of Endangered and Threatened Wildlife. The Service seeks data and comments from the public on this proposed listing rule.

**DATES:** We will accept comments received or postmarked on or before December 5, 2016. Comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES** below) must be received by 11:59 p.m. Eastern Time on the closing date. We must receive requests for public hearings, in writing, at the address shown in **FOR FURTHER INFORMATION CONTACT** by November 18, 2016.
