## DEPARTMENT OF JUSTICE

### Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On September 28, 2016, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Columbia in the lawsuit entitled *United States v. Anthony Spanos, Inc., et al.*, Civil Action No. 1:14-cv-01625-RJL.

The United States filed this lawsuit under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"). The United States' complaint names Anthony Spanos, Inc., George A. Spanos, in his capacity as the trustee of the George A. Spanos Living Trust, and Gus Dinos as defendants. The United States' complaint seeks recovery of costs incurred and to be incurred by the Environmental Protection Agency in connection with the removal of hazardous substances at the Georgia Avenue PCE Site, located in Northwest Washington, DC. The consent decree resolves the United States' claims against George A. Spanos and does not resolve the United States' claims against Anthony Spanos, Inc. and Gus Dinos. George A. Spanos agrees to pay \$125,000 of the United States' response costs and to perform the operation and maintenance of sub-slab depressurization systems at the Site. In return, the United States agrees not to sue George A. Spanos under sections 106 and 107 of CERCLA.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Anthony Spanos, Inc., et al.*, D.J. Ref. No. 90-11-3-10721. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the

Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The Cranes and Derricks standard's information collection requirements impose a duty on employers to produce and maintain records that implement controls and take other measures to protect workers from hazards related to cranes and derricks used in construction. Accordingly, construction businesses with workers who operate or work in the vicinity of cranes and derricks must have, as applicable, the following documents on file and available at the job site: Equipment ratings, employee training records, written authorizations from qualified individuals, and program qualification audits. During an inspection, OSHA will have access to the records to determine compliance under conditions specified by the standard. An employer's failure to generate and disclose the information required in this standard will affect significantly the Agency's effort to control and reduce injuries and fatalities related to the use of cranes and derricks in construction.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other

technological information collection and transmission techniques.

## III. Proposed Actions

The Agency is requesting an adjustment decrease of 36 burden hours (from 386,066 to 386,030 burden hours). The decrease in burden hours is due to errors in calculations. There is also an adjustment increase in operation and maintenance costs of \$103,775 from \$2,183,970 to 2,287,745. The increase is mainly due to an increase in hourly wage rates.

OSHA will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of the information collection requirements contained in the Cranes and Derricks Standard.

*Type of Review:* Extension of a currently approved collection.

*Title:* Cranes and Derricks in Construction (29 CFR part 1926, subpart CC).

*OMB Control Number:* 1218–0261.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 209,851.

*Total Responses:* 2,737,482.

*Frequency of Responses:* On occasion.

*Average Time per Response:* Varies from 30 seconds (communicate employee's location to operator) to 1.5 hours (develop and document written assembly and disassembly procedures).

*Estimated Total Burden Hours:* 386,030 hours.

*Estimated Cost (Operation and Maintenance):* \$2,287,745.

## IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal e-Rulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other materials must clearly identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA–2013–0021. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a

significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350, (TTY) (877) 889–5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (*e.g.*, copyrighted material) is not publically available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available from the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.
