

Secretary of Agriculture to extend financial assistance to construct, improve, alter, repair, replace, or rehabilitate dwellings; farm buildings; and/or related facilities to provide decent, safe, and sanitary living conditions, as well as adequate farm buildings and other structures in rural areas.

Section 506 of the Act requires that all new buildings and repairs shall be constructed in accordance with plans and specifications as required by the Secretary and that such construction be supervised and inspected.

Section 509 of the Act grants the Secretary the power to determine and prescribe the standards of adequate farm housing and other buildings. The Housing and Urban Rural Recovery Act of 1983 amended section 509(a) and section 515 to require residential buildings and related facilities to comply with the standards prescribed by the Secretary of Agriculture, the standard prescribed by the Secretary of Housing and Urban Development, or the standards prescribed in any of the nationally recognized model building codes.

Similar authorizations are contained in sections 303, 304, 306, and 339 of the Consolidated Farm and Rural Development Act, as amended, which authorized loans and grants for essential community services.

In several sections of both acts, loan limitations are established as percentages of development cost, requiring careful monitoring of those costs. Also, the Secretary is authorized to prescribe regulations to ensure that Federal funds are not wasted or dissipated and that construction will be undertaken in an economic manner and will not be of elaborate or extravagant design or materials.

The Rural Utilities Service (RUS) is the credit Agency for rural water and wastewater development within Rural Development of the United States Department of Agriculture (USDA). The Rural-Business-Cooperative Service (RBS) is the credit Agency for rural business development within Rural Development of USDA. These Agencies adopted use of forms in RD Instruction 1924-A. Information for their usage is included in this report.

Other information collection is required to conform to numerous Public Laws applying to all Federal agencies, such as: Civil Rights Acts of 1964 and 1968, Davis-Bacon Act, Historic Preservation Act, Environmental Policy Act, and to conform to Executive Orders governing use of Federal funds. This information is cleared through the

appropriate enforcing Agency or other executive Departments.

The Agencies provide forms and/or guidelines to assist in the collection and submission of information; however, most of the information may be collected and submitted in the form and content which is accepted and typically used in normal conduct of planning and performing development work in private industry when a private lender is financing the activity. The information is usually submitted via hand delivery or U.S. Postal Service to the appropriate Agency office.

Electronic submittal of information is also possible through email or USDA's Service Center eForms Web site.

The information is used by the Agencies to determine whether a loan/grant can be approved, to ensure that the Agency has adequate security for the loans financed, to provide for sound construction and development work, and to determine that the requirements of the applicable acts have been met. The information is also used to monitor compliance with the terms and conditions of the Agencies' loan/grant programs and to monitor the prudent use of Federal funds.

If the information were not collected and submitted, the Agencies would not have control over the type and quality of construction and development work planned and performed with Federal funds. The Agencies would not be assured that the security provided for loans is adequate, nor would the Agencies be certain that decent, safe, and sanitary dwelling or other adequate structures were being provided to rural residents as required by the different acts.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .31 hours per response.

Respondents: Individuals or households, farms, business or other for-profit, non-profit institutions, and small businesses or organizations.

Estimated Number of Respondents: 14,448.

Estimated Number of Responses per Respondent: 13.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the function of the Agencies, including whether the

information will have practical utility; (b) the accuracy of the Agencies' estimate of the burden of the proposed collection of information, including the validity of methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Jeanne Jacobs, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, Stop 0742, 1400 Independence Avenue SW., Washington, DC 20250-0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
