- *Design Competition*—focused on developing innovative habitat architectural concepts that take advantage of the unique capabilities that 3D-Printing offers (completed in 2015).

- *Structural Member Competition (Phase 2)*—will focus on the core 3D-Printing fabrication technologies and materials properties needed to manufacture structural components from indigenous materials combined with recyclables, or indigenous materials alone; serves as a qualifier for participation in Phase 3.

- *On-Site Habitat Competition (Phase 3)*—(to be announced at a later date) will focus on the 3D-Printing fabrication of a scaled habitat design, using indigenous materials combined with recyclables, or indigenous materials alone, and will have a prize purse of \$1.4 million.
