Approval of Missouri's Air Quality Implementation Plans, Operating Permits Program, and 112(I) Plan; Construction Permits Required

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Environmental Protection Agency (EPA) is proposing to approve revisions to the State Implementation Plan (SIP), the Operating Permit Program, and the 112(I) plan submitted on April 6, 2016, by the State of Missouri. In the "Rules and Regulations" section of this **Federal Register**, we are approving the State's SIP and Operating Permit Program revisions as a direct final rule without a prior proposed rule. If we receive no adverse comment, we will not take further action on this proposed rule. The submission from Missouri revises fees for permitting services provided by the air quality program, including construction permit applications and operating permit applications. Missouri also removed the basic operating permit requirement for incinerators with emissions less than the de minimis levels in Missouri's "Operating Permits" rule. While EPA has never approved the basic operating permit program into

Missouri's SIP or Missouri's Operating Permits Program, one statement on incinerators in the approved SIP and Operating Permits Program is removed by the submission. This statement applied Missouri's "Operating Permits" rule to all incinerators within the State. Any permittees with incinerators already required to have either Intermediate State Operating Permits or part 70 Operating Permits will still have the same permitting requirements. This revision does not exempt any incinerators from appropriate permitting. Likewise, any future permittees with incinerators under the former version of the SIP and Operating Permits Program would have required either an Intermediate State Operating Permits or a part 70 Operating Permits will still have the same permitting requirement under the revised SIP and Operating Permits Program. Finally the submission from Missouri makes non-substantive style changes.

DATES: Written comments must be received by November 10, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2016-0571, to <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket.
