Discussion

Under 33 CFR 127.007, an owner or operator intending to build a new facility handling LNG or Liquefied Hazardous Gas (LHG), or an owner or operator planning new construction to expand or modify marine terminal operations in an existing facility handling LNG or LHG, where the construction, expansion, or modification would result in an increase in the size and/or frequency of LNG or LHG marine traffic on the waterway associated with a proposed facility or modification to an existing facility, must submit an LOI to the Captain of the Port (COTP) of the zone in which the facility is or will be located. Annova LNG submitted an LOI and WSA on February 23, 2015; Texas LNG submitted an LOI and WSA on February 16, 2016; Rio Grande LNG, LLC submitted an LOI and WSA on March 18, 2015.

For these projects, a Waterway Suitability Assessment Notice and Request for Comments was previously published in the **Federal Register** at <http://www.regulations.gov> under docket number USCG 2016-0626. The comment period ran from August 23, 2016 to September 22, 2016. Twelve comments were received during the comment period. However, based on additional interest in the projects, we have decided to reopen the comment period for an additional 60 days to allow for more comments to be submitted.

Under 33 CFR 127.009, after receiving an LOI, the COTP issues a Letter of Recommendation (LOR) as to the suitability of the waterway for LNG or LHG marine traffic to the appropriate jurisdictional authorities. The LOR is based on a series of factors outlined in 33 CFR 127.009 that relate to the physical nature of the affected waterway and issues of safety and security associated with LNG or LHG marine traffic on the affected waterway.

The purpose of this notice is to solicit public comments on the proposed construction project as submitted by Rodino, Inc. on behalf of Annova LNG and Texas LNG and as submitted by AcuTech Group, Inc. on behalf of Rio Grande LNG, LLC. Input from the public may be useful to the COTP with respect to developing the LOR. The Coast Guard requests comments to help assess the suitability of the associated waterway for increased LNG marine traffic as it relates to navigation, safety, and security.

On January 24, 2011, the Coast Guard published Navigation and Vessel Inspection Circular (NVIC) 01-2011, "Guidance Related to Waterfront Liquefied Natural Gas (LNG) Facilities." NVIC 01-2011 provides guidance for owners and operators seeking approval to construct and operate LNG facilities. The Coast Guard will refer to NVIC 01-2011 for process information and guidance in evaluating the project included in the LOIs and WSAs submitted by Rodino, Inc. and AcuTech Group, Inc. A copy of NVIC 01-2011 is available for viewing in the public docket for this notice and also on the Coast Guard's Web site at <http://www.uscg.mil/hq/cg5/nvic/2010s.asp>.

This notice is issued under authority of 33 U.S.C. 1223-1225, Department of Homeland Security Delegation Number 0170.1(70), 33 CFR 127.009, and 33 CFR 103.205.

Dated: October 7, 2016.

R.A. Hahn,

Captain, U.S. Coast Guard, Captain of the Port Corpus Christi, TX.
