

Following review and consideration of written comments, the Administrator will determine whether to finalize and submit the proposed NPTS-13A Rate Schedule to the Deputy Secretary of Energy for confirmation and approval on an interim basis, and subsequently to the Federal Energy Regulatory Commission (FERC) for confirmation and approval on a final basis. The FERC will allow the public an opportunity to provide written comments on the proposed rate schedule change before making a final decision.

Dated: October 26, 2016.

**Scott Carpenter,**  
Administrator.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-EPA-HQ-OAR-2010-0050; FRL-9954-77-OEI]

### Proposed Information Collection Request; Comment Request; Implementation of the Ambient Air Protocol Gas Verification Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency is planning to submit an information collection request (ICR), "Implementation of Ambient Air Protocol Gas Verification Program" (EPA ICR No. 2375.03, OMB Control No. 2060-0648) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Comments must be submitted on or before January 3, 2017.

**ADDRESSES:** Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2010-0050 online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public

docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Laurie Trinca, Air Quality Assessment Division, Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Mail Code C304-06, Research Triangle Park, NC 27711; telephone: 919-541-0520; fax: 919-541-1903; email: [trinca.laurie@epa.gov](mailto:trinca.laurie@epa.gov).

#### SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** This ICR includes ambient air monitoring data reporting and recordkeeping activities associated with the 40 CFR part 58 Appendix A, Ambient Air Quality Surveillance Quality Assurance Regulations. These data and information are collected by

state, local, and tribal air quality management agencies and reported to the EPA.

The EPA Ambient Air Quality Monitoring Program's quality assurance requirements in 40 CFR part 58, Appendix A, require: "2.6 Gaseous and Flow Rate Audit Standards. Gaseous pollutant concentration standards (permeation devices or cylinders of compressed gas) used to obtain test concentrations for CO, SO<sub>2</sub>, NO, and NO<sub>2</sub> must be traceable to either a National Institute of Standards and Technology (NIST) Traceable Reference Material (NTRM), NIST Standard Reference Materials (SRM), and Netherlands Measurement Institute (NMI) Primary Reference Materials (valid as covered by Joint Declaration of Equivalence) or a NIST-certified Gas Manufacturer's Internal Standard (GMIS), certified in accordance with one of the procedures given in reference 4 of this appendix. Vendors advertising certification with the procedures provided in reference 4 of this appendix and distributing gases as "EPA Protocol Gas" must participate in the EPA Protocol Gas Verification Program or not use "EPA" in advertising.

These requirements give assurance to end users that all specialty gas producers selling EPA Protocol Gases are participants in a program that provides an independent assessment of the accuracy of their gases' certified concentrations. In 2010, the EPA developed an Ambient Air Protocol Gas Verification Program (AA-PGV) that provides end users with information about participating producers and verification results.

Each year, EPA will attempt to compare gas cylinders from every specialty gas producer being used by ambient air monitoring organizations. The EPA's Regions 2 and 7 have agreed to provide analytical services for verification of 40 cylinders/lab or 80 cylinders total/year. Cylinders will be Start Printed Page 30302verified at a pre-determined time each quarter.

In order to make the appropriate selection, the EPA needs to know what specialty gas producers are being used by the monitoring organizations. Therefore, the EPA needs to survey each primary quality assurance organization every year to collect information on specialty gas producers being used and whether the monitoring organization would like to participate in the verification for the upcoming calendar year.

**Respondent's obligation to respond:** Mandatory (40 CFR part 58).

**Estimated number of respondents:** 211 (total).

*Frequency of response:* Annual.  
*Total estimated burden:* 70 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$4674 (per year).  
*Changes in Estimates:* The renewal ICR will address all changes in the total estimated respondent burden since the last renewal.

**Courtney Kerwin,**

*Director, Regulatory Support Division.*

[EPA-HQ-OW-2015-0499; FRL-9954-82-OW]

**Final National Pollutant Discharge Elimination System (NPDES) Pesticide General Permit for Point Source Discharges From the Application of Pesticides; Reissuance**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final permit issuance.

**SUMMARY:** This notice announces issuance by all ten Environmental Protection Agency (EPA) Regions of the final 2016 National Pollutant Discharge Elimination System (NPDES) pesticide general permit (PGP)—the “2016 PGP.” The 2016 PGP, which has an effective date of October 31, 2016, replaces the

existing permit (“2011 PGP”) that expires at midnight on October 31, 2016, and authorizes certain point source discharges from the application of pesticides to waters of the United States in accordance with the terms and conditions described therein. EPA is issuing this permit for five (5) years in all areas of the country where EPA is the NPDES permitting authority.

**DATES:** The permit is effective on October 31, 2016, and will expire at midnight, October 31, 2021. In accordance with 40 CFR part 23, this permit shall be considered issued for the purpose of judicial review on November 15, 2016. Under Section 509(b) of the Clean Water Act, judicial review of this general permit can be requested by filing a petition for review in the United States Court of Appeals within 120 days after the permit is considered issued. Under Section 509(b) of the Clean Water Act, the requirements of this permit may not be challenged later in civil or criminal proceedings to enforce these requirements. In addition, this permit may not be challenged in other agency proceedings. Deadlines for submittal of a Notices of Intent to be covered, if required, are provided in Part 1.2.3, Table 1–2, of the 2016 PGP.

**FOR FURTHER INFORMATION CONTACT:** EPA Regional Office listed in Section I.C., or you can send an email to [pgp@epa.gov](mailto:pgp@epa.gov). You may also contact Prasad Chumble, EPA Headquarters, Office of Water,

Office of Wastewater Management at tel.: 202–564–0021 or email: [chumble.prasad@epa.gov](mailto:chumble.prasad@epa.gov).

**SUPPLEMENTARY INFORMATION:** This section is organized as follows:

**Table of Contents**

- I. General Information
  - A. Does this action apply to me?
  - B. How can I get copies of this document and other related information?
  - C. Who are the EPA regional contacts for this final permit?
- II. Background
- III. Scope and Applicability
  - A. Geographic Coverage
  - B. Categories of Pesticide Use-Patterns Covered
  - C. Summary of Updates to the 2011 PGP and from the Proposed 2016 PGP.
  - D. Summary of 2016 PGP Terms and Requirements
- IV. Cost Impacts of the PGP
- V. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

**I. General Information**

*A. Does this action apply to me?*

You may be affected by this action if you apply pesticides, under the use patterns in Section III.B, that result in a discharge to waters of the United States in one of the geographic areas identified in Section III.A. Potentially affected entities, as categorized in the North American Industry Classification System (NAICS), may include, but are not limited to:

TABLE 1—ENTITIES POTENTIALLY REGULATED BY THE 2016 PGP

Category	NAICS	Examples of potentially affected entities
Agriculture parties—General agricultural interests, farmers/producers, forestry, and irrigation.	111 Crop Production .....	Producers of crops mainly for food and fiber, including farms, orchards, groves, greenhouses, and nurseries that have irrigation ditches requiring pest control.
	113110 Timber Tract Operations ..	The operation of timber tracts for the purpose of selling standing timber.
	113210 Forest Nurseries Gathering of Forest Products.	Growing trees for reforestation and/or gathering forest products, such as gums, barks, balsam needles, rhizomes, fibers, Spanish moss, ginseng, and truffles.
	221310 Water Supply for Irrigation	Operating irrigation systems.
Pesticide parties (includes pesticide manufacturers, other pesticide users/interests, and consultants).	325320 Pesticide and Other Agricultural Chemical Manufacturing.	Formulation and preparation of agricultural pest control chemicals.
Public health parties (includes mosquito or other vector control districts and commercial applicators that service these).	923120 Administration of Public Health Programs.	Government establishments primarily engaged in the planning, administration, and coordination of public health programs and services, including environmental health activities.
Resource management parties (includes State departments of fish and wildlife, State departments of pesticide regulation, State environmental agencies, and universities).	924110 Administration of Air and Water Resource and Solid Waste Management Programs.	Government establishments primarily engaged in the administration, regulation, and enforcement of air and water resource programs; the administration and regulation of water and air pollution control and prevention programs; the administration and regulation of flood control programs; the administration and regulation of drainage development and water resource consumption programs; and coordination of these activities at intergovernmental levels.
